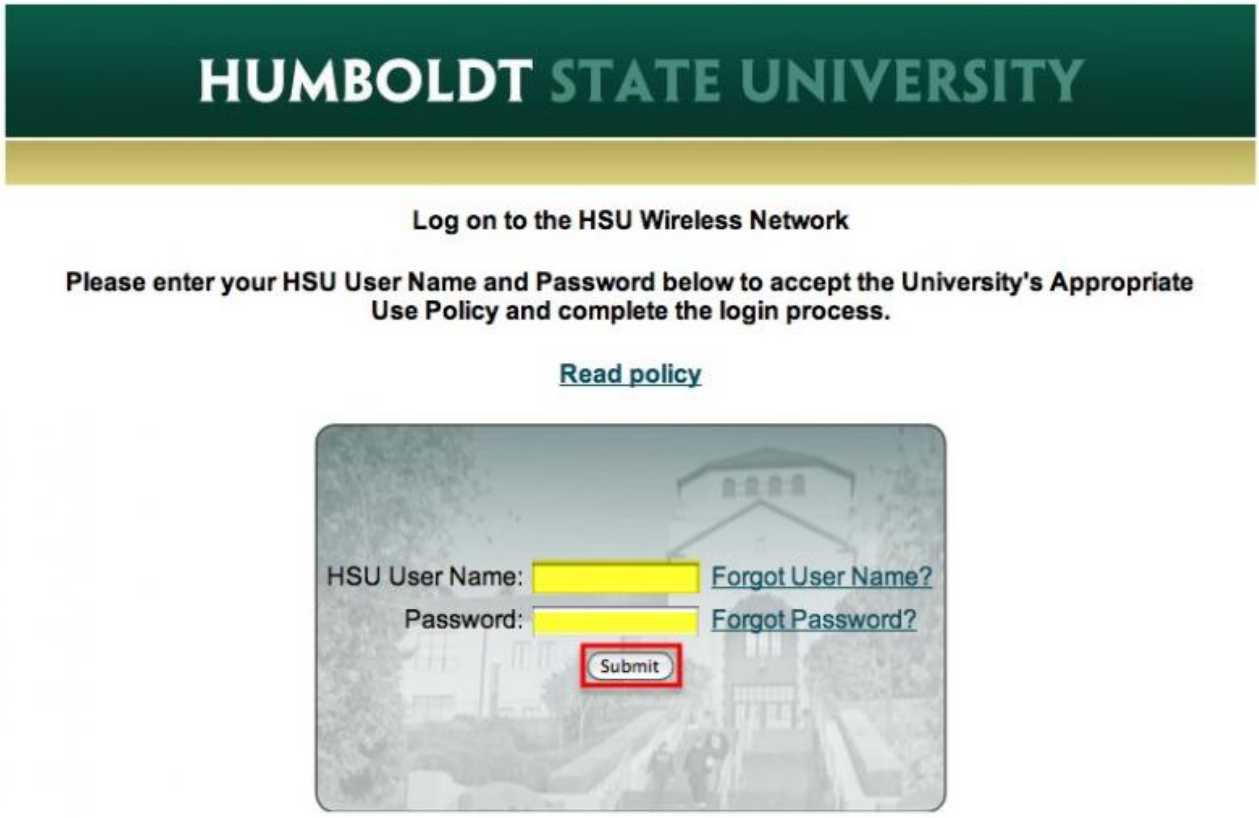
Wireless :: Windows 7 Registration Instructions

Step 1: Connect to the Campus Wireless Network

Enable wireless networking on your Windows computer and connect to **HSUWireless** using the icon in your System Tray.

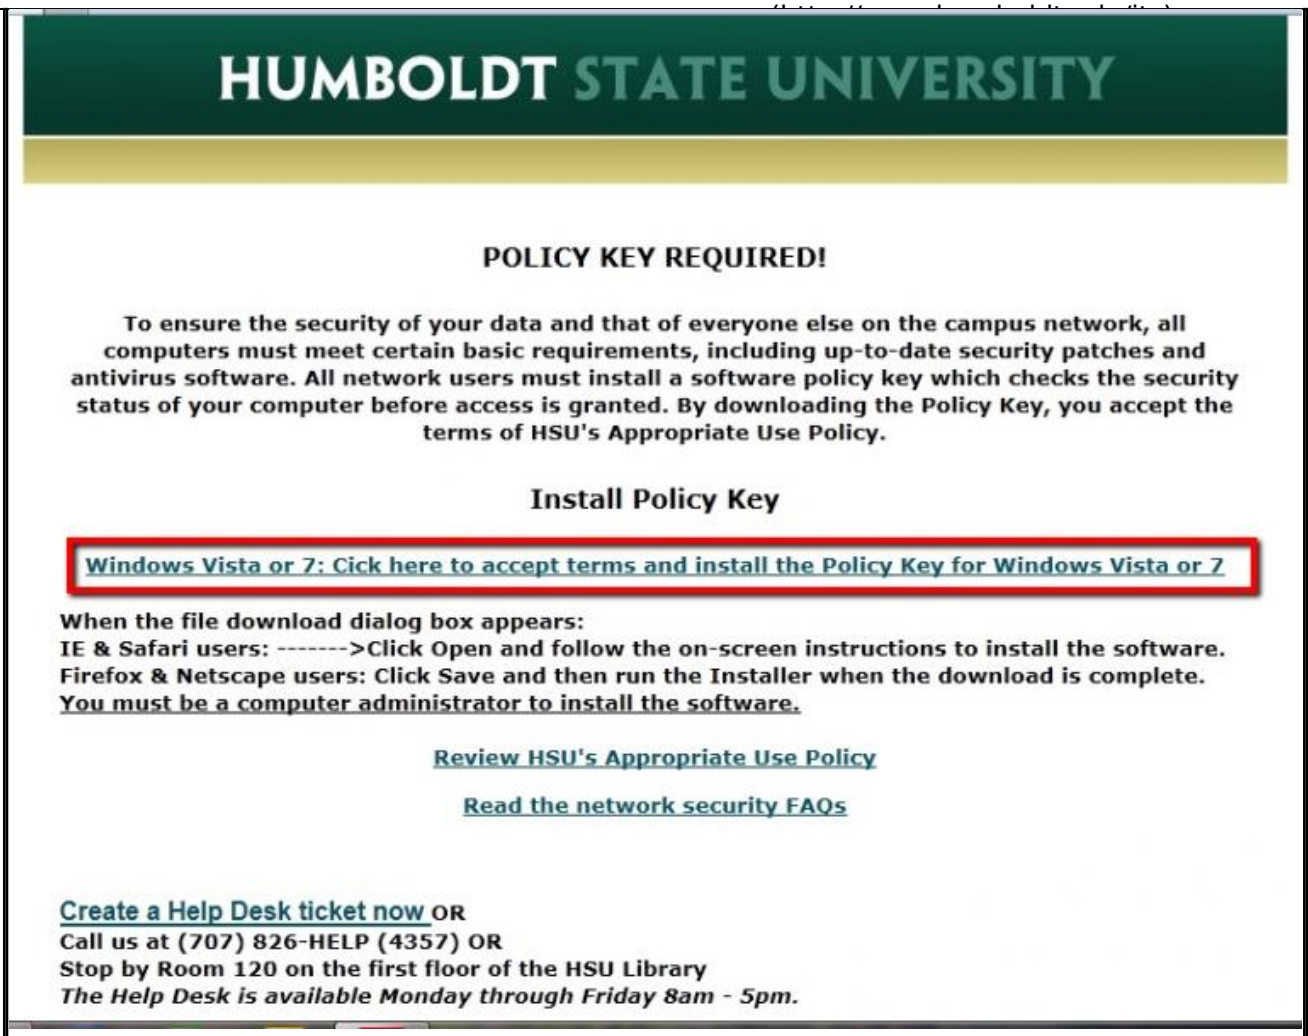
Step 2: Once you are connected to HSUWireless, **open a web browser**.

You should see the HSU Wireless Network log-on page. Enter your HSU User Name **[1] and password** and click **Submit**.

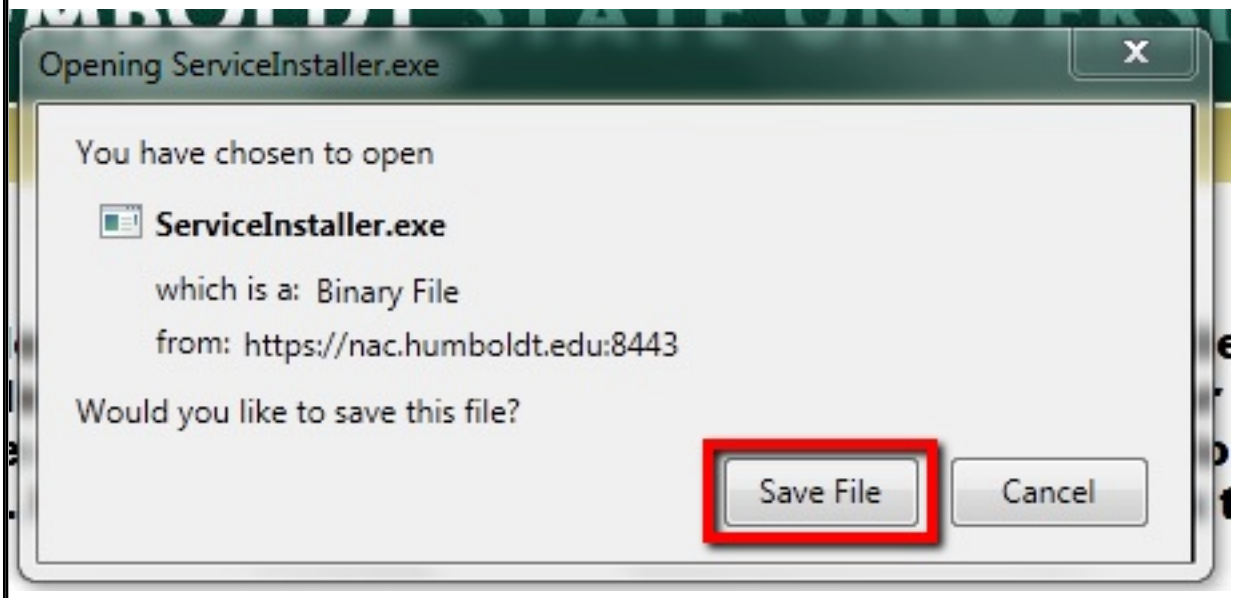


Step 3: Install the PolicyKey [2].

Click the link to accept the terms and install the Safe*Connect client software, including the PolicyKey - your OS (Windows Vista/7 or Windows XP) will automatically be indicated on your screen.



Step 4: Click **Save** (Internet Explorer) or **Save File** (Firefox)

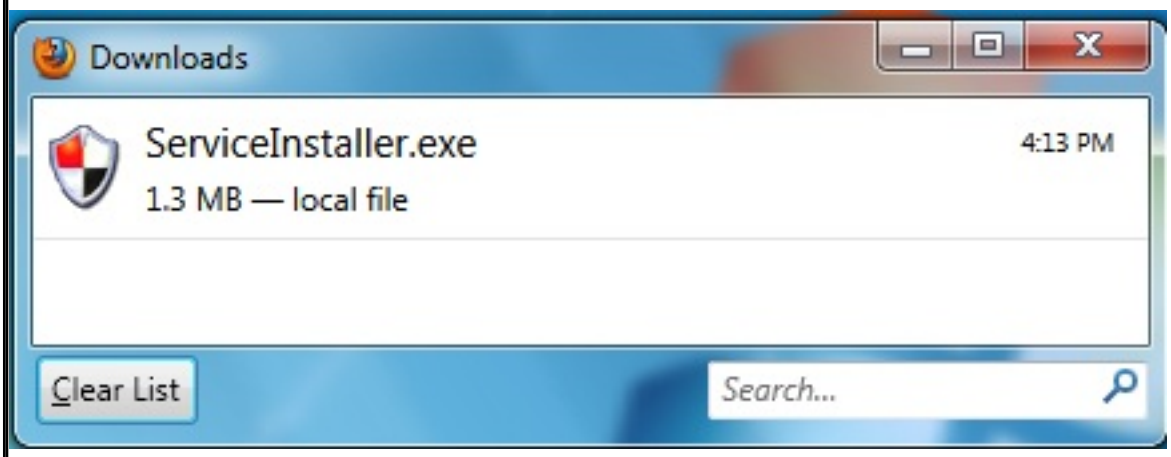


Step 5: When the ServiceInstaller.exe file has downloaded, double-click on the file to run it.

The file may be located on your desktop or in your downloads folder, depending on your browser settings.

Desktop Icon:

Downloads folder (Firefox):



Step 6: If you see a pop-up dialog asking if you want to allow this program to make changes, click **YES**

Step 7: Click **Install**

Step 8: You should now see the SafeConnect Client has been successfully installed and is operating normally screen. Click **OK**.

Step 9: Congratulations - you now have full Internet access!
