2. Topic: Enrollment Management Plan

Attachments: We are still working on the data you need.

Background: Humboldt needs to reduce its resident enrollment target for AY 10/11 to 6612. It is currently at 7034. The Chancellor's Office asked each campus to present a plan on August 19th. We should have a revised plan to the CO by the end of this week or early next week. The plan relies on moving the over sixties program to Extended Education, not admitting post bacs. and second bacs. who are not in degree or credential programs, disqualifying students who earn less than a 1.0 in a term and eliminating spring admissions. Eliminating spring admissions disproportionately affects transfers. We need to decide on the freshmen to transfer ratio.

Action: Provide me advice on the above.
