

A note from the Chair:

Welcome to the HSU School of Business. Our baccalaureate program provides options in accounting, entrepreneurship, finance, international business, management, and marketing. Our one-year MBA program provides coursework in the above-named areas as well as a summer culminating experience. We are one of the largest academic programs on campus.

Our academic programs are infused with sustainability and focused on entrepreneurship. Our faculty are committed to providing students with opportunities for hands-on learning. We are inspired to provide our students with a rigorous business training that is comprehensive, practical, and grounded in social and environmental responsibility and the triple bottom line. We approach sustainability from a pragmatic perspective, helping students to identify and critically assess opportunities in emerging green or certified market segments such as organic foods, clean energy, and earth-friendly products and services.

While you are here you should look for opportunities to connect and get involved. We have several clubs and student organizations that might interest you. The Entrepreneurs Club (or “e-club” -- http://humboldt.edu/clubs/club_sites/eclub/) is for student-entrepreneurs who may be interested in starting a business, in being a social entrepreneur, or who exemplify the entrepreneur spirit. The Business and Economics club (<http://www.humboldt.edu/biz/program/clubs/busecon.html>) provides an opportunity for students to plan events and travel. The student-managed investment fund (SMIF -- <http://www.humboldt.edu/biz/program/clubs/smif.html>) provides students with a hands-on opportunity to learn about financial investing with an actual pool of funds.

Stop in the office in Siemens Hall 111 if you would like to learn more about our programs.

Best wishes,
Dr. Steve Hackett
Chair and Associate Dean
