

## Web Resources

# Aquatic Ecosystems Internships

The following links will provide you with a start to your search. They are suggested websites as well as search engines that offer endless possibilities for internships and jobs locally, nationally, and world wide. Please take the time to look at each and every one of these sites carefully as you never know which one might be holding the opportunity that is perfect for you.

### Alaska Fisheries Science Center

[www.afsc.noaa.gov/Internships/overview.htm](http://www.afsc.noaa.gov/Internships/overview.htm)

Our internship projects may take you to Alaska onboard a survey vessel or to San Miguel Island, CA to study California sea lion life history. Our projects may also place you in our laboratories to learn how we use genetic techniques to study fish populations, or how to identify and differentiate larval fish. This year we even have internships for students interested in library and information sciences.

### Mystic Aquarium

[www.mysticaquarium.org/AQUATICRESEARCH/EducationOpportunities/CollegeInternships/tabid/371/Default.aspx](http://www.mysticaquarium.org/AQUATICRESEARCH/EducationOpportunities/CollegeInternships/tabid/371/Default.aspx)

The Department of Research and Veterinary Sciences is responsible for conducting research in many aspects of marine sciences. This is accomplished through detailed analysis of specimens, data records and a combination of field and in-house research projects. In addition, the medical care of the exhibit collection is the responsibility of the veterinary staff with its advanced program of preventative medicine, diagnostics and therapy.

### Marine Science Intern/ Volunteer Instructor

[www.aquaticadventures.org](http://www.aquaticadventures.org)

Aquatic Adventures is an award winning non-profit science education organization that educates urban youth about science, the ocean and nature, through tuition-free programs, creating the scientific and environmental leaders of the future.

### The Otter Project/ Monterey Coastkeeper

[www.marinetech.org/education/internships/avail\\_intern.php?phase=2&page=1222900615](http://www.marinetech.org/education/internships/avail_intern.php?phase=2&page=1222900615)

Duties will include outreach to members, potential members and interested parties through social networking sites to facilitate a dialogue on global environmental issues affecting sea otters and coastal eco-systems.

### MATE ( Marine Advanced Technology Education Center )

[www.marinetech.org/careers/internships.php](http://www.marinetech.org/careers/internships.php)

One of the primary goals of the MATE Center is to develop educational resources and opportunities for students interested in marine science and technology.

### Centers for Ocean Sciences Education Excellence (COSEE)

[www.oceancareers.com/2.0/links.php#intern](http://www.oceancareers.com/2.0/links.php#intern)

Internships, fellowships, and volunteer information

### California Fish and Game
