Pay-for-Print:: Installing Windows Printers

To install printers on your Windows laptop, follow these instructions:

Step 1: Download the printer installer tool [1]. Save the file when prompted. Take note of where you've saved it (typically your Desktop or Downloads folder)

Step 2: Locate the file (WirelessPrinters for Lte.exe) that you just downloaded (typically it will be on your Desktop or in your Downloads folder). **Double-click** on the installer to run it.

Step 3: Click the Install button (in the lower right-hand corner) to begin the install process. (It may take several minutes for the installation to complete).

Note: If you have Sophos Antivirus installed, it may guarantine one of the files during the that the file was quarantined.
