

How to Use an Authorization Code

To place a call using an authorization code:

Press ***6***

Enter the **authorization code**

Press **#**

Wait for valid **authorization code tone** (two or three short beeps)

Press **9**

Enter the **telephone number (include area code if calling outside 707 area)**

An intercept tone (french police siren) indicates an invalid entry & you must hang up and retry.

Once successful, your call will go through and your department will receive the charges for that call.
