

VACANCY ANNOUNCEMENT
FULL-TIME, TENURE TRACK POSITION
STARTING AUGUST 2008
JOB # 7412

Area of Instruction: Statistics

Rank and Salary: Rank and salary are dependent upon the appointee's qualifications and experience. The current California State University Salary Structure is available at:
<http://www.humboldt.edu/~aps/docs/Salary-Schedule.xls> .

Professional Qualifications: A Ph.D. in Statistics or a quantitative science with an emphasis in statistics from an accredited college or university is required at time of appointment. Candidates who can work collaboratively and productively with colleagues on scientific research projects and include thesis supervision for students in the Mathematical Modeling Environmental Systems Graduate Program will be given special consideration. The candidate must have a demonstrated interest and ability to teach a broad range of courses to diverse students (majors, general education students, etc.). Candidates whose qualifications also suit them to prepare individuals to function in a culturally and ethnically diverse society are especially encouraged to apply.

Professional Duties: The appointee will teach courses in statistics, including introductory statistics, probability and mathematical statistics, and various areas of applied statistics. A typical teaching load consists of 12 hours per semester. Instructional assignments will be consistent with the programmatic needs of the department and students. The primary professional responsibilities of instructional faculty members are: teaching, scholarship and service. Included in these responsibilities are traditional academic functions, such as advising students, participation in campus and system-wide committees, maintaining office hours, and working collaboratively and productively with colleagues.

General Information: Humboldt State University is part of the 23-campus California State University system. The University has a comprehensive arts and sciences curriculum, which is recognized nationally for its high academic quality. Founded in 1913, HSU is one of the premier, public institutions in the western United States; it is a residential and rural campus with an enrollment of approximately 7,500 students. The main campus is located in Arcata, California, in the northwestern part of the state along the coast, situated among redwood trees in an area that offers unmatched scenic beauty, moderate climate and opportunities for outdoor activities. The community offers an excellent range of businesses, services and cultural activities/performances. The local schools are ranked in the top performance percentiles, both nationally and in the state.

The Mathematics Department at HSU consists of 14 permanent faculty and approximately 100 mathematics majors. The department also has a graduate Masters Degree program in Environmental Systems with an option in Mathematical Modeling with approximately 20 graduate students. The graduate program has an established national reputation for collaborative interdisciplinary research in natural resources. The department is particularly noted for its teaching excellence, with several faculty members being recipients of outstanding teaching awards. The department's current scholarly interests include mathematical modeling, applied statistics in natural resource science, analysis, algebra, and mathematics education.

Humboldt State University is committed to achieving the goals of equal opportunity and endeavors to employ faculty and staff of the highest quality reflecting the ethnic and cultural diversity of the State. Additional information about Humboldt State University can be found at: <http://www.humboldt.edu>. Humboldt State University provides an excellent benefits package for faculty. Information about the benefits plans available to HSU faculty can be found at the following website: http://www.calstate.edu/Benefits/Summaries/2007_Faculty-Unit%203.pdf

Application: Qualified candidates should send a letter of application, curriculum vita, transcripts (unofficial copies are sufficient for initial review), and three recent letters of recommendation to:

Dr. Dale Oliver, Chair
Department of Mathematics
Humboldt State University
One Harpst Street
Arcata, California 95521-8299
Phone (707) 826- 5347/ Fax (707) 826-3140

In letter of application, please refer to **Job # 7412**

Application Deadline: All complete application files received by November 28, 2007 will receive full consideration. Those arriving after this date may be considered if the position is not filled. Candidates are welcome to utilize fax (707-826-3140) or e-mail (dro1@humboldt.edu) for correspondence and application materials.

The University is an Equal Opportunity/Title IX/ADA employer with a strong commitment to diversity and encourages applications from women, members of all ethnic groups, veterans and people with disabilities. Humboldt State University employs only individuals authorized to work in the United States.
