

TEACHING AND LEARNING
CREATIVITY AND DESIGN
WITH A MULTIDISCIPLINARY
PERSPECTIVE

Co-Facilitated by:

Dr. Guy-Alain Amoussou (CS) and

Dr. Steve Steinberg (ENRS)

A five week special topics course

From Jan. 21 to Feb. 25

MW 1700-1820 BSS 317

- Are you curious about how elements of design and creativity can help you be a greater designer of products, processes, models, etc. in your field.
- Do you want to engage in creative 'out of the box' thinking, but don't know how to start?
- Are you interested in learning about how to work effectively in design teams?

Through this course students will:

- Be able to identify the components of design;
- Actively engage in design;
- Be exposed to multidisciplinary creative tools;
- Practice being creative;
- Develop their teamwork skills and;
- Practice verbal and written communication of their designs.
