Green Campus Program The Green Campus Program (GCP) empowers students to lead energy efficiency and conservation campaigns at their universities. Green Campus interns design and implement energy efficiency projects. These projects result in measurable energy savings and reduced carbon emissions for the campus. Green Campus interns are also dedicated to educating the campus community on the relationship between energy use and the environment. For more information on the structure of Green Campus and what we do, please check out "More About Us." If you'd like to get involved with Green Campus, join our volunteer e-mail list by clicking [here](#) or join our facebook group. News4/21/09 : - Our proposed Relight Redwood Bowl grant has been accepted by HEIF (Humboldt Energy Independence Fund) - CFL day and SLAMfest are coming up this Friday and Saturday, for more information check out the "upcoming events " section.

The Alliance to Save Energy's Green Campus Program is funded by the ratepayers of California under the auspices of SCE, PG&E and Sempra Energy. Contact us at greencampushsu@gmail.com
