

Social Security Informational Workshop

Belinda Zander, a technical expert from the local Social Security Office will be presenting an informational workshop to the campus, on Wednesday, December 9, 2:30 p.m. – 4:00 p.m., in the Kate Buchanan Room.

This is an excellent opportunity for those employees who are nearing retirement or employees who may have specific questions regarding their future Social Security benefits or other related matters.

Prior to the workshop, Belinda has requested that we present her with questions or areas of interest to employees, to ensure all inquiries are fully addressed and accurate information is provided. These areas may include but are not limited to: windfall offset, Social Security online access—what it can do for you, applying for benefits, MediCare enrollment, social security disability, etc. Please send your questions to Jim Stemach, at Jim.Stemach@humboldt.edu by Tuesday, December 2.

Attendance is limited to 100; you must register through the HSU training website at http://training.humboldt.edu/Training_sign_up.php?recordID=555
