

## **ad hoc Information Technology Services Advisory Committee**

Charge – Provide advice and feedback for the Chief Information Officer and the Provost on issues related to Information Technology Services (ITS). This committee will review budget requests and expenditures and assist in developing and reviewing policies related to ITS. The committee will work with the yet to be hired permanent CIO in developing a strategic plan for ITS. The strategic plan should include the development of a permanent advisory structure for ITS. This committee will sunset once a permanent advisory structure has been implemented.
