

California Natural History Institute

Astronomy, Geology, and Ecology at Schreder Planetarium and Lassen National Park

Sponsored by the Redwood Science Project (RSP) including funding from the California Postsecondary Education Commission jointly with the Inland Northern Science Project, CSU Chico (INSP), National Parks and the California Environmental Legacy Project.

The Lassen Institute will feature astronomy at the Schreder Planetarium, as well as geology, and ecology of the Lassen area. As a part of our California Natural History Institute series this institute will focus on developing a rich sense of place based knowledge about natural history supported by experiences in the field, literature reading, digital media and journaling.

AUDIENCE: **Teachers** – interested in professional development focused on furthering science education with a focus on Ecological and Geological Systems and the science of Human Impacts. Institute materials will have a middle and high school focus.

DATES & LOCATIONS: **Sept. 25, 26, and 27, 2009** Friday we will be at the Schreder Planetarium in Redding at 10am. Friday and Saturday nights we will be staying at Camp Latieze, only 15 or 20 minutes from Lassen's entrance.

COMPENSATION: \$250 stipend; substitute reimbursement for Friday; lodging Friday and Saturday.

FEE: \$50 purchase order from school district or check or money order made out to the Redwood Science Project.

QUESTIONS: Contact Julie Van Sickle at jav16@humboldt.edu or (707) 826-5552
