Final Career Preparation Paper – Two Parts

Part I: 800-1000 words laying out a specific plan as to what you intend to do over the next 3/6/9/12 months to work on your career options.

You are all at different points on this path, but wherever you are, there are many things you can do in the short/medium and long term to keep moving forward eg keeping looking for grad programs (putting them in a contact/network system), actually contact grad programs, talk to faculty here about your plans and ask about future references, set up informational interviews by phone or in person over an upcoming break or the summer to make initial contacts, put in a specific number of applications to certain types of jobs by a certain time. The options are only limited by your own seriousness of intention and an action plan is an important first step.

Part II: 800-1000 words reflecting on two questions:

- 1) What have you have learned about your career interests - and about your strengths and weaknesses in pursuing those options; and
- 2) How (and whether) this class has helped you feel more prepared for job/career/after college challenges?

Format note: Both parts should be in 12 point, Times New Roman, 1.5 spaced, with 1 inch margins. Parts I and II should be on separate sheets of paper and be sure to include your name on both.
