

Lake Mendocino Destination Park

Lead Organization: Greater Ukiah Business and Tourism Alliance

Sector: Arts, Culture & Tourism

Learn More

The Lake Mendocino Destination Park will transform an underused nine-acre U.S. Army Corps of Engineers property into a destination that brings people together while supporting tourism, outdoor recreation, and economic opportunity. Designed for both residents and visitors, the park will create new spaces for gathering, learning, recreation, and small business activity while showcasing the natural beauty and character of the Redwood Region. Led by the Greater Ukiah Business and Tourism Alliance in partnership with the U.S. Army Corps of Engineers and regional partners, this project will strengthen the local economy, support entrepreneurs, and create a community asset that will benefit the region for generations.

Intended Outcomes

- Grow the Local Economy
- Expand Jobs and Business Opportunities
- Create a Place for People
- Leave a Lasting Community Asset

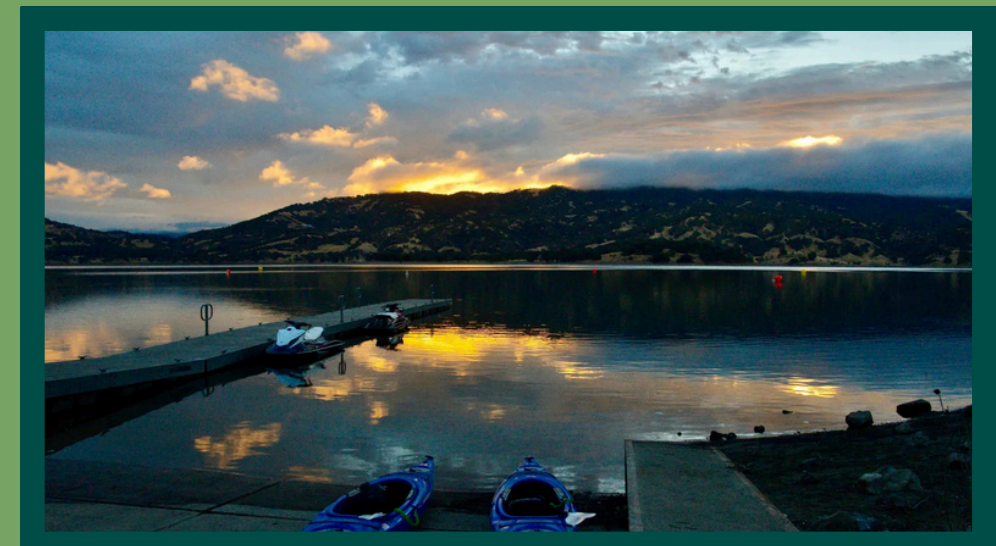

Project Updates

Phase One is complete and includes a perimeter trail, scenic vista point with seating and public art, natural playscape, meditation area, food truck and event space, lavender field, storytelling monument stones, stone seating for stargazing, handcrafted picnic tables, and site preparation for a walkable spiral.

Phase Two, beginning in August 2026, will include public art, signage, and site preparation for an outdoor classroom, and a BMX bike area, continuing to expand recreation and educational opportunities for the community. As the park grows, long-term success will depend on maintaining the site, building quality programming, and keeping the community involved.

Ways to Engage

- **Partner with us** - Collaborate on projects, events, and programming.
- **Be part of the vision** - Volunteer, sponsor, and support the next phases.
- **Share your talents** - Help bring the park to life with your skills and creativity.
