

Native Pollinator Map

Four Locations to see Three of Our Primary Pollinators!

Hummingbirds, Anise Swallowtail butterfly, and Yellow-faced bumblebees are common native pollinators on the Cal Poly Humboldt campus. Look for these pollinators at the following locations:

Bottlebrush

Inside-Out Flower

Columbia Lily

Thimbleberry

Ceanothus

Manzanita

1. Bottlebrush thicket by stairs to Founders Hall

2. Pollinator garden at NW corner of Alistair McCrone Hall

3. Native landscaping around Forestry and NR Buildings

4. Native landscaping around the BSS Building
