## LETTER FROM THE EXECUTIVE VICE CHANCELLOR, CHIEF FINANCIAL OFFICER

The California State University is the largest and most ethnically and economically diverse four-year university in the United States. We educate more than 475,000 students across 23 campuses spanning 800 miles, from Humboldt State in the north to San Diego State in the south. By bringing the life-changing opportunities of an affordable, high-quality education to a student population as dynamically diverse as California itself, the CSU is a powerful driver of social mobility.

The CSU drives California's economy, as well. One in 10 California employees is a CSU graduate. With more than 125,000 annual graduates, we award

approximately half of the state's bachelor's degrees, fueling innovation and prosperity in fields such as information technology, agriculture, education, engineering, healthcare, business, public administration, media and entertainment.

But we are committed to doing more for Californians from all walks of life, for whom a college degree has never been more important, and to increasing our educated workforce to sustain economic growth.

To that end, we are continuing to increase our enrollment capacity, hiring additional tenure-track faculty and adding course sections. We've introduced a new admission redirection policy to ensure that no eligible student is turned away from the CSU.

However, we know that merely opening the door to higher education is not enough. So, as we work to provide increased access for California's diverse citizenry, we are also committed to ensuring that all our students succeed and graduate in a timely manner. By providing holistic student support, the CSU's flagship Graduation Initiative 2025 is designed to do exactly that, and the results have been truly remarkable. Graduation rates are at all-time highs for all students, regardless of race, ethnicity or financial background. Record numbers of degrees are being awarded.

Indeed, we are gaining momentum at the CSU. We have worked hard to streamline our operations so that we can direct more resources toward student success. Our financial position is strong. The state has demonstrated its belief in the CSU by investing boldly in our work.

Our commitment to the people of California is to build upon this momentum – to do more than ever before to ensure authentic access to an affordable quality education for all – and to help propel California toward its brightest future.

Steve Relyea

Executive Vice Chancellor, CFO

The California State University

KPMG LLP Suite 700 20 Pacifica Irvine, CA 92618-3391

#### **Independent Auditors' Report**

The Board of Trustees California State University:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the California State University (the University), an agency of the State of California (the State), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of 88 of the 90 aggregate discretely presented component units, which reflect total assets constituting 95% and total revenues constituting 94% of the aggregate discretely presented component units totals. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the 88 discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of 39 discretely presented component units were not audited in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinion

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the California State University, as of June 30, 2019, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended, in accordance with U.S. generally accepted accounting principles.

#### **Other Matters**

#### Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 5-24, the Schedules of University's proportionate share of the net pension liability and related ratios, and employer contributions related to pension in Schedules 1 and 2, and the Schedule of University's net other postemployment benefits liability and related ratios, and employer contributions related to other postemployment benefits in Schedules 3 and 4, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standard Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The supplementary information included in Schedules 5 through 8 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Schedules 5 and 8 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedules 5 and 8 are fairly stated in all material respects, in relation to the basic financial statements that collectively comprise the University's basic financial statements.

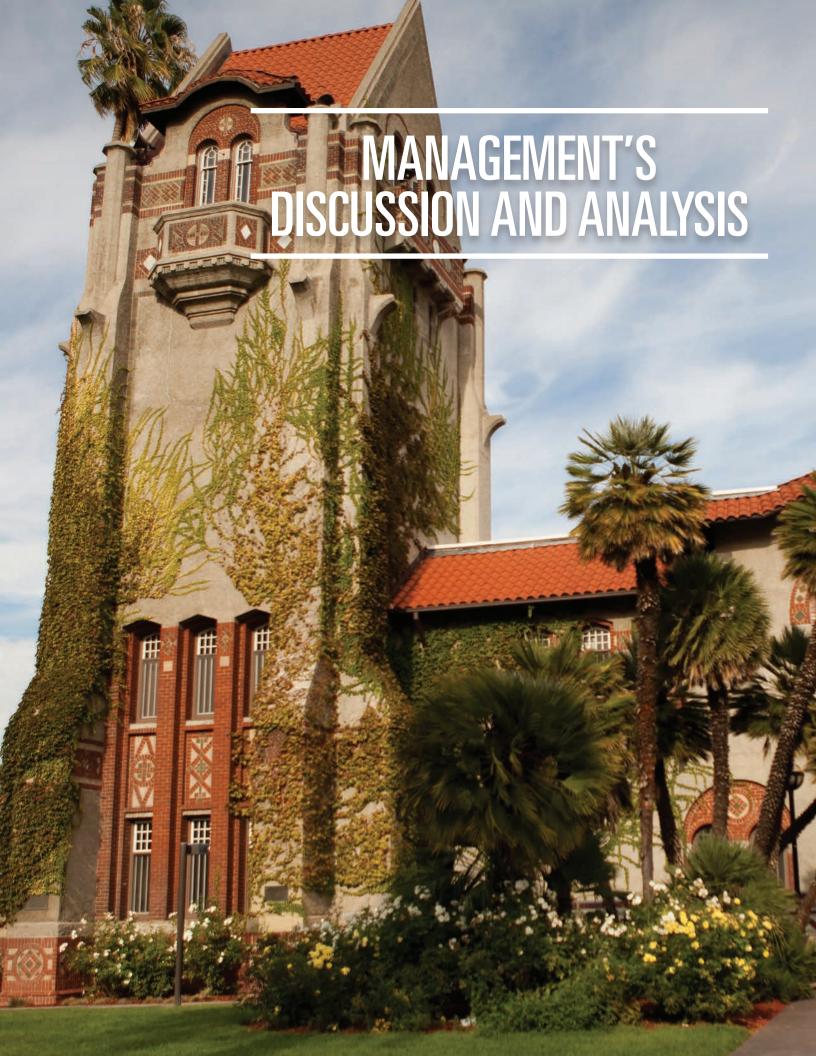

Schedules 6 and 7 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2019 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

KPMG LLP

Orange County, California December 19, 2019

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

The discussion and analysis below provides an overview of the financial position and performance of the California State University (the University) as of and for the year ended June 30, 2019, including 23 campuses and the Office of the Chancellor (collectively referred to as the University), and 90 discretely presented component units. The discussion has been prepared by management and should be read in conjunction with the financial statements and accompanying notes, which follow this section. Separate financial statements are issued for each of the discretely presented component units and may be obtained from the individual campuses.

#### The California State University

The University promotes student success through high-quality education that prepares students to become leaders in the changing workforce, making the University a vital economic engine for California.

The University was established under the State of California Education Code as a public university to offer undergraduate and graduate instruction for professional and occupational goals emphasizing a broad liberal arts education. As an agency of the State of California (the State), the University is also included in the State's financial statements. Responsibility for the University is vested in the Trustees of California State University (the Trustees) who, in turn, appoint the Chancellor, who is the chief executive officer of the University, and the University presidents, who are the chief executive officers of the respective campuses.

The discretely presented component units of the University consist of primarily recognized auxiliary organizations. These not-for-profit organizations are separate legal entities created to perform essential functions. These functions are classified into the following categories:

- Student self-governance
- Student body center, union, and recreation center
- Externally supported research and sponsored programs
- Commercial services such as bookstores, food services, housing, or real estate development
- Philanthropic activities

#### **Financial Statements**

The financial statements of the University as of and for the year ended June 30, 2019 have been prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. For reporting purposes, the University is considered a special-purpose government engaged in business-type activities.

This discussion and analysis is intended to serve as an introduction to the University's basic financial statements: the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows. The financial statements are designed to provide readers with a broad overview of the University's finances from all revenue sources, in a manner similar to the private sector. The University's discretely presented component units are presented in a separate column to enable the reader to distinguish between the University and these separate but related not-for-profit organizations.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Statement of Net Position

The Statement of Net Position is the University's balance sheet. It presents information on all of the University's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between these four reported as net position (equity). Assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally reported at book value, except investments, which are reported at fair value. Over time, increases or decreases in net position may serve as a useful indicator of the financial position of the University. The University's net position is classified as net investment in capital assets, restricted or unrestricted.

Changes from one fiscal year to the next in total net position as presented on the Statement of Net Position are based on the activity presented on the Statement of Revenues, Expenses, and Changes in Net Position.

#### Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position is the University's income statement. Revenues earned and expenses incurred during the fiscal year on an accrual basis are classified as either operating or nonoperating. This distinction results in operating deficits, as the GASB Statement No. 35 reporting model requires classification of state appropriations, a significant revenue stream to fund current operations, as nonoperating revenue.

#### Statement of Cash Flows

The Statement of Cash Flows presents the changes in the University's cash and cash equivalents during the most recent fiscal year. This Statement is prepared using the direct method. The Statement breaks out the sources and uses of the University's cash and cash equivalents into four categories:

- Operating activities
- · Noncapital financing activities
- · Capital and related financing activities
- Investing activities

The University's routine activities appear in the operating and noncapital financing categories. Noncapital financing activities include borrowing money for purposes other than to acquire, construct, or improve capital assets and repaying those amounts borrowed, including interest. The proceeds from the issuance of Systemwide Revenue Bonds (SRB) that will be passed through to the discretely presented component units for capital purposes are reported as noncapital financing activities.

Capital and related financing sources include debt proceeds, state capital appropriations, capital grants and gifts, proceeds from sale of capital assets, and principal and interest payments received on capital leases. Within the capital and related financing activities, uses of funds consist of acquisition of capital assets, and debt repayments. Sales and purchases of investments are part of investing activities.

The Statement of Cash Flows for the discretely presented component units is not included in the University's financial statements.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### **Financial Position**

The Statement of Net Position presents the financial position of the University and its discretely presented component units. The major components of the Statement of Net Position include assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. A condensed comparative Statements of Net Position follows:

				Discretely	presented
		Uni	versity	compon	ent units
		2019	2018	2019	2018
			(In the	ousands)	
Assets:					
Current assets	\$	4,076,294	3,788,535	1,585,507	1,559,753
Capital assets, net		9,538,377	9,056,572	912,577	833,650
Other noncurrent assets		2,017,426	1,915,548	2,487,979	2,358,674
Total assets		15,632,097	14,760,655	4,986,063	4,752,077
Deferred outflows of resources		2,456,788	3,752,587	32,520	37,782
Liabilities:					
Current liabilities		1,502,157	1,426,526	493,517	517,734
Noncurrent liabilities		28,279,755	29,756,004	1,034,713	1,014,903
Total liabilities		29,781,912	31,182,530	1,528,230	1,532,637
Deferred inflows of resources		2,888,140	1,504,986	52,189	45,034
Net position:					
Net investment in capital assets		3,438,964	3,485,290	295,177	259,778
Restricted:					
Nonexpendable		1,693	1,708	1,336,916	1,274,214
Expendable		194,812	135,223	1,146,945	1,025,148
Unrestricted		(18,216,636)	(17,796,495)	659,126	653,048
Total not position	<u>¢</u>				
Total net position	\$	(14,581,167)	(14,174,274)	3,438,164	3,212,188

The University's net position decreased by \$406.89 million in 2019. The University adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, in 2018. This change in accounting policy in 2018 was the primary reason for the deficit in the unrestricted net position. Despite the deficit, the University's current ratio, which measures its ability to pay-off short-term obligations, remains positive for both years at an average of 2.68.

7

Management's Discussion and Analysis

June 30, 2019

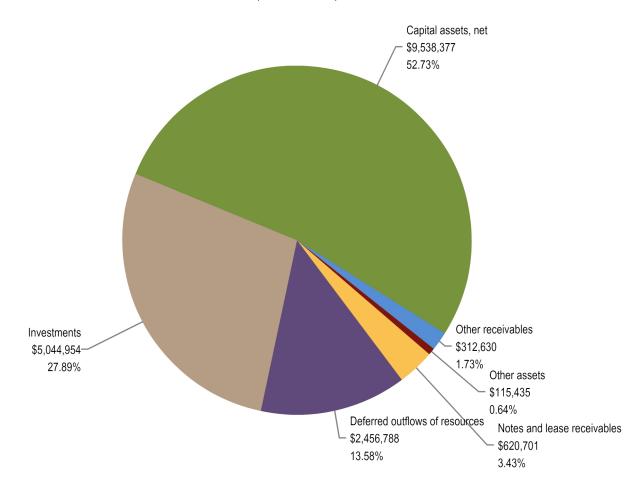

(Unaudited)

## The University's Financial Position

#### Assets and Deferred Outflows of Resources

Total assets increased from \$14.76 billion in 2018 to \$15.63 billion in 2019. Deferred outflows of resources decreased from \$3.75 billion in 2018 to \$2.46 billion in 2019.

## Assets and Deferred Outflows of Resources (In thousands)

Current and other noncurrent assets of the University are assets that are not capital assets and are used to meet current and noncurrent obligations. These assets consist of cash and cash equivalents, restricted cash and cash equivalents, investments, accounts receivable, notes receivable, capital leases receivable, student loans receivable, pledges receivable, prepaid expenses, and other assets.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Capital Assets, Net

The University's capital assets, net of accumulated depreciation and amortization, represents the largest portion of total assets. The University's net capital assets are as follows:

	2019		2018
		(In thousand	ls)
Land and land improvements	\$	281,916	273,340
Buildings and building improvements		6,861,632	6,468,331
Improvements other than buildings		213,164	211,300
Infrastructure		658,566	648,478
Equipment		228,913	232,830
Library books and materials		29,578	30,877
Works of art and historical treasures		50,100	47,231
Intangible assets		57,870	59,928
Construction work in progress		1,156,638	1,084,257
Total	\$	9,538,377	9,056,572

The University continues to expand its campuses and renovate existing facilities to meet the needs of its students, faculty, and staff. The capital spending includes constructing and renovating academic buildings, student union and recreation centers, and housing facilities. Major projects in 2019 included the Dominguez Hills Center for Science and Innovation, the Long Beach Student Success Center/Peterson Hall 2 renovation, the Los Angeles Student Housing East and Parking Structure E, the Monterey Bay Academic Building III and Student Union, the Pomona Student Housing Replacement, the San Bernardino College of Extended Learning expansion, and the San Jose Student Recreation and Aquatics Center.

#### Investments

The University invests its funds mainly in the Liquidity Portfolio (Systemwide Investment Fund Trust or SWIFT), and the Total Return Portfolio (TRP), collectively referred herein as CSU Consolidated Investment Pool. The purpose of the Liquidity Portfolio is to provide sufficient and immediate liquidity to meet the operating needs of the University. The investment objective for TRP is to achieve prudent return within a moderate risk level. In addition, funds are invested in Surplus Money Investment Fund (SMIF), which is managed and invested by the State Treasurer in a short-term pool. The proceeds from the sale of Systemwide Revenue Bonds (SRB) are held by the State and invested in SMIF, as required by state law. The investment balances are as follows:

		2019	Percentage of total		2018	Percentage of total
	(In	thousands)		(In	thousands)	
Liquidity Portfolio	\$	3,655,041	72.45%	\$	3,780,477	80.13%
Total Return Portfolio		559,192	11.08		126,033	2.67
State's Surplus Money Investment Fund		830,721	16.47		811,514	17.20
Total	\$	5,044,954	100.00%	\$	4,718,024	100.00%

9

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

Investments increased from \$4.72 billion in 2018 to \$5.04 billion in 2019. Investments increased due to proceeds from issuance of SRB Series 2018A/B and Bond Anticipation Notes (BAN), investment gains/earnings, and increase in operating resources provided by the State through noncapital appropriations. This is offset by capital project spending and debt service payments.

#### Notes Receivable

The University has a program utilizing discretely presented component units to support a broad range of functions. In certain cases, the discretely presented component units are involved in the financing of campus facilities as well as off-campus facilities serving the needs of the campus. These facilities are mostly financed by SRB using either lease or loan arrangements.

In the loan arrangement, facilities are financed or refinanced by a loan of SRB proceeds from the University to the discretely presented component units pursuant to a loan agreement. Under the terms of the loan agreement, in return for the loan from the University, the component unit agrees to acquire, construct and/or maintain the facility and repay the loan to the University. The outstanding loan balance is carried by the University as notes receivable. Notes receivable from discretely presented component units increased from \$376.75 million in 2018 to \$400.38 million in 2019. The increase of \$23.63 million is due mainly to the new loan agreements for construction of facilities on the University amounting to \$90.28 million, net of current year collections of \$66.65 million.

#### Deferred Outflows of Resources

Deferred outflows of resources are consumption of assets that are applicable to a future reporting period, which has a positive effect on the net position. Deferred outflows of resources consist of the following transactions:

- Pension Increases in the net pension liability that are not recognized as pension expenses for the reporting period are reported as deferred outflows of resources. This includes the difference between expected and actual experience with regard to economic or demographic factors used by an actuary to determine total pension liability; and increases in the University's proportionate share of net pension liability, which are recognized as pension expenses over the average of the expected remaining service lives of participating employees. A deferred outflow of resources is also reported when projected earnings on pension plan investments exceed actual earnings, with the net difference amortized to pension expense over a five-year period beginning in the current period. The employer contributions subsequent to measurement date are recognized as deferred outflows of resources related to pensions and reduction of net pension liability in the following year.
- Other Postemployment Benefits (OPEB) The employer contributions subsequent to measurement date are recognized as deferred outflows of resources and a reduction of total OPEB liability in the following year.
- Loss on Debt Refunding The defeasance of previously outstanding systemwide revenue bonds results in
  deferring refunding losses. These deferred losses are recognized as a component of interest over the remaining
  life of the old debt or the life of the new debt, whichever is shorter.

Deferred outflows of resources decreased by \$1.30 billion from \$3.75 billion in 2018 to \$2.46 billion in 2019. This is mainly due to the decrease in deferred outflows related to net pension liability. In 2018, the University recognized a one-time supplemental pension contribution of \$876.84 million which was applied against net pension liability in 2019. In addition, there was an amortization of \$467.55 million for deferred outflows of resources related to net pension liability.

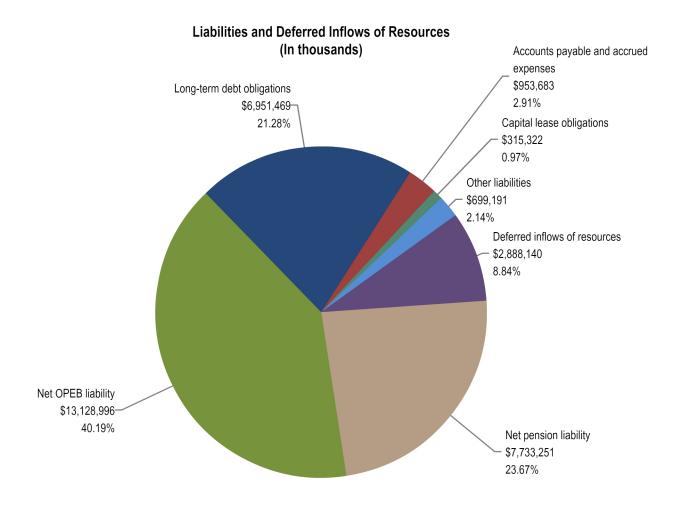

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Liabilities and Deferred Inflows of Resources

Total liabilities of \$29.78 billion represent a decrease of \$1.40 billion compared to \$31.18 billion in 2018. Deferred inflows of resources increased from \$1.50 billion in 2018 to \$2.89 billion in 2019.

Current liabilities (liabilities due within one year) and noncurrent liabilities (liabilities due in more than one year) include major components such as net pension liability, long-term debt obligations, accounts payable and accrued expenses, total OPEB liability, capital lease obligations, and other liabilities.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Total OPEB Liability

The State has a Retiree Health Benefits Program with CalPERS as an agent multiple-employer defined-benefit plan and CalPERS functions as the investment and administrative agent for its members. The University, as a state agency, participates in the State's Retiree Health Benefits Program.

The University implemented the accounting standard for other postemployment benefits in 2018 which requires recognition of the total OPEB liability. The ending total OPEB liability, recognized as a result of the implementation of GASB Statement No. 75, was \$13.13 billion. The OPEB benefits are funded on a pay-as-you-go basis as eligible participants retire and receive those benefits.

The total OPEB liability decreased from \$13.92 billion as of June 30, 2018 to \$13.13 billion as of June 30, 2019. The key factors contributing to this decrease include (a) favorable healthcare claims experience resulting in lower average per member claim cost, (b) change in trend rates, (c) update on pension related assumptions based on the December 2017 experience study, and (d) higher discount rate from 3.56% to 3.62%.

#### Net Pension Liability

The State's pension plans with CalPERS are agent multiple-employer defined-benefit pension plans and CalPERS functions as the investment and administrative agent for its members. The University, as a state agency, participates in the State's pension plans. The plans act as cost-sharing, multiple-employer defined-benefit pension plans for the University. The University's share in the net pension liability, which is actuarially determined, is based on its proportionate share in the total pensionable compensation of all the participating state agencies for the measurement period.

The net pension liability decreased from \$8.90 billion in 2018 to \$7.73 billion in 2019. The \$1.17 billion decrease is primarily due to the favorable impact of stronger than expected net investment returns on the pension plan assets of \$1.43 billion. Furthermore, the contributions both by the University and its employees of \$1.95 billion reduced the net pension liability. Changes in assumptions reduced the net pension liability by \$332.25 million, offset by \$2.54 billion additional pension liability which included the impact of service costs, interest and unfavorable experience compared to the expected.

#### Long-Term Debt Obligations

The University's capital assets are financed using the State's capital appropriations, SRB, leases, and reserves. BANs provide short-term financing for capital assets during the construction period. The University's total long-term debt obligations increased by \$500.80 million in 2019. The University's long-term debt obligations are summarized as follows:

#### Management's Discussion and Analysis

June 30, 2019

(Unaudited)

		2019	2018
	(In thousands)		
Systemwide revenue bonds	\$	6,211,333	5,692,563
Bond anticipation notes		109,659	169,205
Other long-term debt obligations		10,046	12,813
Total		6,331,038	5,874,581
Unamortized net bond premium		620,431	576,084
Total long-term debt obligations		6,951,469	6,450,665
Less current portion		(171,813)	(144,174)
Long-term debt obligations, net of current portion	\$	6,779,656	6,306,491

#### Systemwide Revenue Bonds

The University's SRB program issues revenue bonds to finance housing, parking, health centers, student body centers, continuing education facilities, and other special projects related to the educational mission of the University. The following revenues have been pledged as a security for outstanding SRB: student tuition fees, student housing fees, student body center fees, parking fees, health center facility fees, and fees from the continuing education program, as well as payments from various auxiliary organizations and special purpose government entities.

Moody's Investors Service currently provides an intrinsic rating of Aa2, with a stable outlook, for the SRB. Standard & Poor's Ratings Services currently provides an intrinsic rating of AA-, with a stable outlook, for the SRB. All maturities in SRB Series 2007B, and 2007C are insured. Since the middle of fiscal year 2008, some providers of insurance for SRB have been downgraded to ratings below Aaa/AAA. Those bonds that are uninsured bear the intrinsic ratings of the SRB, which are Aa2 from the Moody's Investors Service and AA- from the Standard & Poor's Ratings Services.

The long-term debt obligations related to SRB increased by \$518.77 million due to issuance of Series 2018A/B with proceeds amounting to \$663.69 million offset by \$144.92 million of combined payments and refunding of SRB Series 2008A.

#### Bond Anticipation Notes

BANs are used as short-term financing to acquire and construct capital assets. The BAN payable decreased by \$59.55 million from a prior year's ending balance of \$169.21 million, based on additional BANs amounting to \$111.20 million, offset by redemption of \$170.75 million using proceeds from sale of SRB Series 2018 A/B and campus revenue.

#### State General Obligation Bonds

The State's GO Bond program has provided capital funding for various projects of the University. The debt related to these projects is not allocated to the University by the State and is not recorded in the University's financial statements. The total GO Bonds carried by the State related to University projects decreased from \$2.24 billion in 2018 to \$2.14 billion in 2019. As a result of the enactment of Education Code Section 89770, the University's share continues to decrease as bonds are paid by the State with no new debt issued for capital facilities.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Deferred Inflows of Resources

Deferred inflows of resources are related to certain changes in net pension liability and total OPEB liabilities. Deferred inflows of resources increased by \$1.39 billion from \$1.50 billion in 2018 to \$2.89 billion in 2019. This is mainly due to changes in the actuarial OPEB assumptions and the favorable healthcare claims experience as the member claims cost is lower than assumed.

#### Net Position

Net position may serve over time as a useful indicator of the University's financial position. Net position represents the residual interest in the University's assets and deferred outflows of resources after all liabilities and deferred inflows of resources are deducted.

Net position by category is as follows:

	2019	2018
	 (In thousands	3)
Net investment in capital assets	\$ 3,438,964	3,485,290
Restricted:		
Nonexpendable	1,693	1,708
Expendable	194,812	135,223
Unrestricted	 (18,216,636)	(17,796,495)
Total net position	\$ (14,581,167)	(14,174,274)

#### Net Investment in Capital Assets

The net position category "Net investment in capital assets" represents the University's capital assets, net of accumulated depreciation and amortization, and also net of outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets and any related deferred outflows of resources. The net investment in capital assets slightly decreased from \$3.49 billion in 2018 to \$3.44 billion in 2019.

#### Restricted

Restricted net position has constraints on its use that are either externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes a government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for specific purposes. Such restrictions are primarily related to endowments, scholarships and fellowships, research, loans, capital projects, and debt service funds. The restricted net position category consists of two subcategories: "Restricted nonexpendable" and "Restricted expendable".

#### i. Restricted Nonexpendable

The restricted nonexpendable net position is made up of the permanent endowment funds, the corpus of which may not be expendable. The University's foundations, which are discretely presented component units, hold the significant majority of the University-related endowments.

#### ii. Restricted Expendable

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

Restricted expendable net position represents resources that are subject to external restrictions on how they may be used. Such restrictions are primarily related to scholarships and fellowships, research, loans, capital projects, and debt service funds. The restricted expendable net position increased due to spending for capital outlay projects and debt service payments.

#### Unrestricted

The unrestricted net position represents all other net resources available to the University for general and educational obligations. Under U.S. generally accepted accounting principles, net position that is not subject to externally imposed restrictions governing their use must be classified as unrestricted for financial reporting purposes. Although unrestricted net position is not subject to externally imposed restrictions per accounting definitions, the predominant portions of the unrestricted net position are designated by statute for specific programs or projects related to certain revenue sources. The University, an agency of the State of California, considers statutory restrictions as internally imposed restrictions rather than externally imposed restrictions.

These resources are derived from fee collections and other activities that are designated for very specific purposes and are not to be repurposed and spent for other activities. For example, students pay fees, including housing, parking, and campus activities fees, all of which are to be used for specific designated purposes as described in the State of California Education Code. The University also has certain designated resources that represent amounts pledged to support the SRB program.

At June 30, 2019, unrestricted net position reflects a deficit of \$18.22 billion due primarily to the implementation of GASB Statement No. 68 (pension) during 2015, and the implementation of GASB Statement No. 75 (OPEB) in 2018. Unrestricted net position decreased \$420.14 million in 2019. These Statements require the University to record its share of the State's actuarially determined liabilities for pension and OPEB.

Management's Discussion and Analysis

(Unaudited)

#### **Discretely Presented Component Units' Financial Position**

In 2019, the discretely presented component units (DPCUs) managed \$4.99 billion of assets, representing 24.18% of the University's \$20.62 billion combined total assets. In 2018, \$4.75 billion of assets were managed by the discretely presented component units, representing 24.35% of the combined total assets.

The philanthropic activities of the University are managed mostly by the discretely presented component units. The restricted cash and cash equivalents, pledges receivables, and endowment investments increased from \$1.86 billion in 2018 to \$2.00 billion in 2019. This represents 9.71% and 9.53% of the combined total assets for 2019 and 2018, respectively.

The claims liability for losses and loss adjustment expenses decreased from of \$68.69 million in 2018 to \$60.45 million in 2019. These are mainly the liabilities from the California State University Risk Management Authority, a discretely presented component unit.

The restricted net position, expendable and nonexpendable, of the discretely presented component units was \$2.48 billion, representing 92.67% of the combined restricted net position in 2019. In 2018, the restricted net position of discretely presented component units was \$2.30 billion, representing 94.38% of the combined restricted net position.

The combined University and discretely presented component units' net position reflects a deficit of \$11.14 billion in 2019 when compared to \$10.96 billion deficit in 2018.

Management's Discussion and Analysis

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

## **Revenues (Operating and Nonoperating)**

The University's two largest sources of revenues are state appropriations and student tuition and fees, net, which accounted for a combined 66.12% and 68.96% of total revenues in 2019 and 2018, respectively. State appropriations are received for both noncapital and capital purposes.

The University's total revenues consisted of the following:

	2019	Percentage of total		2018	Percentage of total
	(In thousands)		(In t	housands)	
State appropriations (noncapital and capital)	\$ 4,137,542	43.18%	\$	4,486,584	46.13%
Student tuition and fees, net	2,197,925	22.94		2,220,797	22.83
Grants, contracts, and gifts	2,178,863	22.74		2,145,711	22.06
Sales and services (educational activities and auxiliary enterprises), net	607,889	6.34		575,907	5.92
Investment income, net and other revenues	459,481	4.80		296,901	3.06
Total revenues (operating and nonoperating)	\$ 9,581,700	100.00%	\$	9,725,900	100.00%

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

State Appropriations (Noncapital and Capital)

The University's state appropriations (noncapital and capital) consisted of the following:

	2019		2018
		(In thousa	ands)
State appropriations, general fund	\$	3,776,457	3,451,874
State's contribution on behalf of the University for pension benefits		_	720,559
State's contribution on behalf of the University for OPEB		326,113	314,151
Total state appropriations, noncapital		4,102,570	4,486,584
State appropriations, capital		34,972	_
Total state appropriations (noncapital and capital)	\$	4,137,542	4,486,584

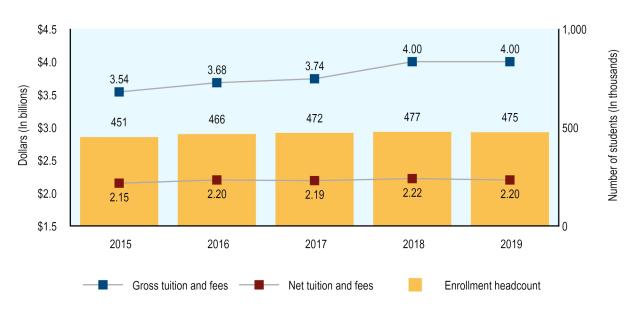

The state general fund appropriations increased from \$3.45 billion in 2018 to \$3.78 billion in 2019. The increase of \$324.58 million was to augment funding for the graduation initiative 2025, employee compensation, SPWB capital lease obligations debt service, mandatory cost increases, and other miscellaneous support.

In 2018, the State, on behalf of the University, had a one-time supplemental pension contribution amounting to \$720.56 million to help reduce the net pension liability in accordance with Government Code Section 20825. No similar contributions were made in 2019.

Student Tuition and Fees. Net

The student tuition and fees (before scholarship allowances) remained consistent with prior year at \$4 billion. The following chart displays the five-year trend between enrollment headcount and student tuition and fees:

#### Student Tuition Fees and Enrollment 5-Year Trend

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

The gross student tuition fees revenue reflects an increasing trend over the last five years. This is mainly driven by student enrollment growth in the last five years. In addition to student enrollment growth, the increase in tuition rates effective in academic year 2017-2018 resulted in the upward trend in 2018.

The University offers eligible students fee waivers and institutional grants to be applied against student tuition and fees. This is in addition to federal agencies, state agencies, and nongovernmental grantor's student financial aid grants. Collectively, these are referred to as scholarship allowance; an offset to the gross student tuition and fees. The increasing gap between the gross and net student tuition and fees reflects growth in the waivers and financial aid grants made available to students. In 2019 and 2018, approximately half of the student tuition and fees were paid through waivers and financial aid grants, as shown in the table below.

	2019	2018	
	(In thousands)		
Gross student tuition and fees	\$ 3,998,779	3,993,233	
Less: Institutional grants	(802,370)	(783,690)	
Less: Financial aid grants	(998,484)	(988,746)	
Net student tuition and fees	\$ 2,197,925	2,220,797	

Sales and Services (Educational Activities and Auxiliary Enterprise)

Sales and services of educational activities include revenues related incidentally to the conduct of instruction, research, and public service, and revenues for activities that exist to provide instructional and laboratory experience for students and that incidentally create goods and services that may be sold to faculty, students, staff, and the general public. Net revenues from sales and services of educational activities amounted to \$47.66 million, a decrease from \$52.40 million in 2018.

Auxiliary enterprises exist predominantly to furnish goods or services to students, faculty, or staff, for a fee. Net revenues from sales and services of auxiliary enterprises, which are primarily for student housing and parking, amounted to \$560.23 million, which is a \$36.73 million increase when compared to 2018. The increase is due mainly to new student housing facilities which operated for the first time in 2019 and increases in housing occupancy, space rentals, and parking permits issued to students, faculty, and employees.

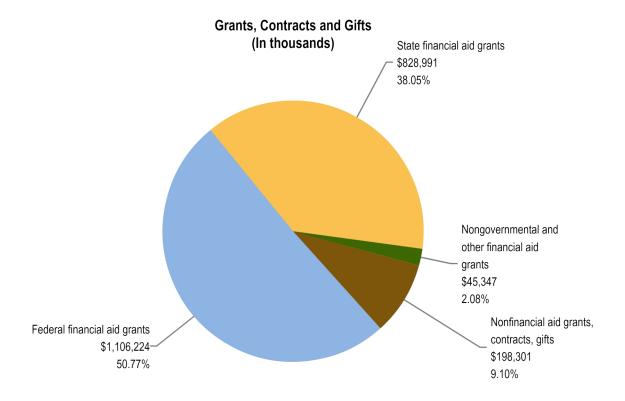

Grants, Contracts and Gifts

Grants, contracts and gifts revenues are derived substantially from the student financial aid grants from federal agencies, state agencies, and nongovernmental grantors. Major federal financial aid grants came from the Pell Grant, Supplemental Educational Opportunity Grant, and College Work Study. Major state financial aid grants came from Cal Grants and Middle Class Scholarship.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

Student financial aid grants of \$1.98 billion represent 90.90% of the University's total grants, contracts, and gifts revenues of \$2.18 billion for 2019. Federal and state agencies contributed \$1.94 billion in 2019 and \$1.89 billion in 2018. The financial aid increases are due to more eligible students and higher aid per student.

The remainder of the grants, contracts and gifts include non-financial aid grants, contracts, changes to permanent endowments, and gifts (capital and noncapital), which amounted to \$198.30 million, or 9.10%, of total grants, contracts, and gifts. Further, gifts received from discretely presented component units amounted to \$75.54 million.

Investment and Endowment Income. Net

Investment and endowment income for 2019 is \$204.83 million, which is \$137.48 million higher when compared to the prior year. This is mainly attributable to favorable market conditions in 2019.

## **Expenses (Operating and Nonoperating)**

The University's total expenses of \$9.99 billion is comprised of operating expenses of \$9.68 billion, or 96.95%, and nonoperating expenses of \$305.07 million, or 3.05%.

#### Operating Expenses

When the mission-critical educational support activities of student services, academic support, student grants and scholarships, public service, and research are added to direct classroom instruction, the total instruction and educational support activities account for 70.31% and 70.60% of the 2019 and 2018 total operating expenses of the University, respectively.

## Operating Expenses (In thousands)

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### Salaries

The University's salaries increased from \$3.61 billion in 2018 to \$3.72 billion in 2019. The increase is due mainly to employee salary rate increases during the year and higher employee headcount. The majority of the increase in salaries are in instruction and education support of \$79.97 million, in institutional support of \$19.94 million, and in operation and maintenance of plant of \$17.22 million.

#### Benefits

The University's benefits decreased from \$3.19 billion in 2018 to \$2.91 billion in 2019. The majority of the decrease in benefits are in instruction and educational support \$179.43 million, in institutional support of \$53.12 million, and in operation and maintenance of plant of \$28.27 million. The overall decrease was related to changes in OPEB and pension expenses.

The OPEB expense decreased by \$268.66 million in 2019, due mainly to the smoothing effect of the changes in the assumptions and differences between actual and expected experience. The pension related benefits expense decreased by \$100.82 million in 2019, due mainly to higher earnings from the pension plan investments, and favorable changes in assumptions which offset the increase in the service costs, interest on net pension liability, and other related costs. The other benefits expense increased by \$87.66 million due to increase in benefits rates and employee headcount.

#### Scholarships and Fellowships

The scholarship and fellowships, which represent financial aid directly paid to students, increased from \$891.17 million in 2018 to \$915.29 million in 2019. The increase is mainly due to an increased number of students eligible for financial aid.

#### Supplies and Other Services

The University's supplies and other services increased from \$1.53 billion in 2018 to \$1.61 billion in 2019. The increase of \$81.02 million is mainly comprised of \$17.55 million for instruction and educational support, \$8.32 million for institutional support, \$41.46 million for operation and maintenance of plant, and \$13.69 million for auxiliary enterprise.

#### **Discretely Presented Component Units' Results of Operations**

The discretely presented component units managed \$2.04 billion of revenues, representing 17.56% of the University's \$11.62 billion combined total revenues. This is higher compared to the 17.08% in prior year due to increase grants, gifts and contracts.

The discretely presented component units managed \$820.56 million grants contracts, and gifts revenues, representing 27.36% of the \$3 billion combined total. Discretely presented component units fund many student co-curricular activities, administer research programs, raise funds, operate student unions, offer recreational programs, coordinate commercial enterprises, and develop public-private partnerships on behalf of the University.

Management's Discussion and Analysis

June 30, 2019

(Unaudited)

#### **Factors Impacting Future Periods**

University Support Budget Plan for Fiscal year 2019-2020

The University's \$7.15 billion total operating budget for fiscal year 2019-2020 is funded primarily from two sources: \$3.98 billion from State general fund appropriations and \$3.17 billion of tuition and fee revenues.

The fiscal year 2019-2020 budget includes an augmentation of \$379.07 million for the following:

- \$45 million for the Graduation Initiative 2025
- \$131.16 million for enrollment funding
- \$147.83 million for employee compensation
- \$131.16 million for increased enrollment
- \$9.80 million for facilities and infrastructure projects
- \$42.27 million for mandatory cost increases (e.g., health benefits, operations and maintenance of new facilities)
- \$3 million for other programs

#### **Subsequent Events**

The following information describes significant events that occurred subsequent to June 30, 2019, but prior to the date of the auditors' report.

SRB Issuance

In August 2019, the University issued \$449.43 million of SRB Series 2019A (Tax Exempt) and \$81.34 million of SRB Series 2019B (Taxable). The new bonds were issued to fund various capital projects, redeem maturing BANs, refund outstanding SRB Series 2010A bonds.

BAN Issuance

In September 2019, the University issued \$43.26 million of BANs for the San Diego State University Aztec Recreation Center expansion.

In October 2019, \$43.35 million of BANs were issued for the Long Beach Housing expansion - Parkside North project and \$30 million for the San Jose State University South Campus Parking Structure and Sports Field Facility Project.

In November 2019, the University issued \$98.30 million of BANs for the Capital Outlay Program and Five-Year Facilities Renewal and Improvement Plan.

## (1) Organization

California State University (the University) was established under the State of California Education Code as a public university to offer undergraduate and graduate instruction for professional and occupational goals emphasizing a broad liberal arts education. As an agency of the State of California (the State), the University is also included in the State's financial statements. Responsibility for the University is vested in the Trustees of California State University (the Trustees) who, in turn, appoint the Chancellor, who is the chief executive officer of the University, and the University presidents, who are the chief executive officers of the respective campuses. In addition to the Office of the Chancellor, the following 23 campuses comprise the California State University at June 30, 2019:

- California State University, Bakersfield
- California State University Channel Islands
- California State University, Chico
- · California State University, Dominguez Hills
- California State University, East Bay
- California State University, Fresno
- California State University, Fullerton
- Humboldt State University
- California State University, Long Beach
- California State University, Los Angeles
- California State University Maritime Academy
- California State University, Monterey Bay
- California State University, Northridge
- California State Polytechnic University, Pomona
- California State University, Sacramento
- California State University, San Bernardino
- San Diego State University
- San Francisco State University
- San José State University
- California Polytechnic State University, San Luis Obispo
- California State University San Marcos
- Sonoma State University
- California State University, Stanislaus

(In thousands)

The University provides instruction for baccalaureate, masters', doctorate, and certificate programs, and operates various auxiliary enterprises, such as student housing and parking facilities. In addition, the University administers a variety of financial aid programs that are funded primarily through state and federal programs.

## (2) Summary of Significant Accounting Policies

#### (a) Financial Reporting Entity

In accordance with Governmental Accounting Standards Board (GASB) Statements No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, and No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an amendment of GASB Statement No. 34, the accompanying financial statements present the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows of the 23 campuses and the Office of the Chancellor of the University.

In addition, the accompanying financial statements include the accounts of the 90 discretely presented component units, which are primarily University-related recognized auxiliary organizations. These discretely presented component units are legally separate entities that provide services primarily to the University and its students. Recognized auxiliary organizations include foundations, associated students, student unions, auxiliary services, university corporations, and similar organizations. Foundations, whose net position comprises approximately 78.84% of the discretely presented component unit totals, carry out a variety of campus-related activities. Such activities consist primarily of administering grants from governmental and private agencies for research, as well as soliciting and accepting donations, gifts, and bequests for University-related use. Separate financial statements are issued for each of the discretely presented component units and may be obtained from the individual campuses.

The discretely presented component units are as follows:

- California State University, Bakersfield Foundation
- Associated Students, California State University, Bakersfield, Inc.
- California State University, Bakersfield Student Union
- California State University, Bakersfield, Auxiliary for Sponsored Programs Administration
- California State University Foundation
- California State University Institute
- California State University Risk Management Authority
- California State University, Channel Islands Foundation
- Associated Students of California State University Channel Islands, Inc.
- CI University Auxiliary Services, Inc.
- California State University Channel Islands Financing Authority
- California State University Channel Islands Site Authority
- Chico State Enterprises (formerly The CSU, Chico Research Foundation)
- The University Foundation, California State University, Chico

These component units are presented in the accompanying financial statements as discretely presented component units of the University due to the nature and significance of their relationship with the University. The relationships are such that exclusion of these organizations from the reporting entity would render the financial statements incomplete, primarily due to their close affiliation with the University. These organizations are discretely presented to allow the financial statement users to distinguish between the University and the component units. None of the component units are considered individually significant to the total discretely presented component units. All significant nonexchange transactions between the University and discretely presented component units have been eliminated from these financial statements.

The accompanying financial statements also include the Stockton Center Site Authority, and Fullerton Arboretum Authority, which are included as blended component units. These organizations primarily provide services to the University in the areas of asset management and student support. The University is financially accountable for these organizations.

## (b) Basis of Presentation

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Notes to Financial Statements

June 30, 2019

(In thousands)

As a public institution, the University is considered a special-purpose government under the provisions of GASB Statements Nos. 34 and 35. The University records revenue in part from fees and other charges for services to external users and, accordingly, has chosen to present financial statements using the reporting model for special-purpose governments engaged in business-type activities. This model allows all financial information for the University to be reported in a single column in each of the financial statements, accompanied by aggregated financial information for the discretely presented component units, as discussed above. The effects of internal activities between funds or groups of funds have been eliminated from these financial statements.

## (c) New Accounting Pronouncements

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*, effective for the University's fiscal year beginning July 1, 2019. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefits) trust funds, (2) investment trust funds, (3) private-purpose trust funds and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust fund or equivalent arrangement that meets specific criteria. The University is evaluating the effect GASB Statement No. 84 will have on its financial statements.

In June 2017, the GASB issued Statement No. 87, *Leases*, effective for the University's fiscal year beginning July 1, 2020. This Statement requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The University is evaluating the effect GASB Statement No. 87 will have on its financial statements.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for the University's fiscal year beginning July 1, 2020. This Statement requires that interest cost incurred before the end of the construction period be recognized as an expense in the period in which the cost is incurred. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The University is evaluating the effect GASB Statement No. 89 will have on its financial statements.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests*, effective for the University's fiscal year beginning July 1, 2019. This Statement modifies previous guidance for reporting a government's majority equity interest in a legally separate organization. When a majority equity interest meets the definition of an investment as defined by GASB, the equity interest is to be reported as an investment for financial reporting purposes and measured using the equity method. Majority equity interests that do not meet the definition of an investment are to be reported as a component unit. This Statement also provides guidance for valuing the acquisition of assets and liabilities of 100% equity interests that remain legally separate, and brings this reporting in line with existing standards that apply to acquisitions that do not remain legally separate. The University is evaluating the effect GASB Statement No. 90 will have on its financial statements.

Notes to Financial Statements

June 30, 2019

(In thousands)

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, effective for the University's fiscal year beginning July 1, 2021. This Statement clarifies the definition of a conduit debt obligation and establishes that a conduit debt obligation is not a liability of the issuer. However, an issuer should recognize a liability associated with an additional commitment or a voluntary commitment to support debt service if certain recognition criteria are met. The University is evaluating the effect GASB Statement No. 91 will have on its financial statements.

#### (d) Classification of Current and Noncurrent Assets (Other than Investments) and Liabilities

The University considers assets to be current that can reasonably be expected, as part of its normal business operations, to be converted to cash and be available for liquidation of current liabilities within 12 months of the Statement of Net Position date. Liabilities that reasonably can be expected, as part of normal University business operations, to be liquidated within 12 months of the Statement of Net Position date are considered to be current. All other assets and liabilities are considered noncurrent. For classification of current and noncurrent investments, refer to note 2(f).

## (e) Cash and Cash Equivalents and Statement of Cash Flows

The University considers highly liquid investments with an original maturity date of three months or less to be cash and cash equivalents. The University considers amounts included in the California State University (CSU) Consolidated Investment Pool to be investments.

The Statement of Cash Flows does not include the cash flows of the discretely presented component units. Certain discretely presented component units are also participants in the CSU Consolidated Investment Pool. The University considers changes in the equity in the CSU Consolidated Investment Pool as investing cash flows of the University in the accompanying Statement of Cash Flows.

## (f) Investments

Investments are reflected at fair value using quoted market prices. Realized and unrealized gains and losses are included in the accompanying Statement of Revenues, Expenses, and Changes in Net Position as a component of investment income, net.

Investments that are used for current operations are classified as short-term investments. Investments that are restricted from withdrawal or use for other than current operations, designated or restricted for the acquisition or construction of noncurrent assets, designated or restricted for the liquidation of the noncurrent portion of long-term debt obligations, and restricted as to the liquidity of the investments are classified as other long-term investments.

The University invests in the Surplus Money Investment Fund (SMIF), an external investment pool. The State Treasurer invests the SMIF funds through the Pooled Money Investment Account (PMIA). PMIA policy sets as primary investment objectives safety, liquidity, and yield. The Investment Division of the State Treasurer's Office manages the PMIA under statutory authority granted by California Government Code Sections 16430 and 16480.4. The Pooled Money Investment Board governs the PMIA. The State Treasurer chairs this Board, which also includes the State Controller and the State Director of Finance.

#### (g) Accounts Receivable

The University maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable based on types of receivables and expectations of repayment. In establishing the required allowance, management considers one or more of the following: types of receivable, state guidelines, historical losses

Notes to Financial Statements

June 30, 2019

(In thousands)

adjusted to take into account current market conditions, the amount of receivable in dispute, the current receivable aging, and current payment patterns. The University reviews its allowance for doubtful accounts annually. Past-due balances over 90 days and over a specified amount are reviewed individually for collectibility.

#### (h) Capital Assets

Capital assets are stated at cost or estimated historical cost if purchased, or, if donated, at estimated acquisition value (an entry price) at date of donation. Capital assets, including infrastructure and intangible assets, with an original value of five thousand dollars or more and with a useful life of over one year, are capitalized. Such cost includes, where applicable, interest capitalized as part of the cost of constructed capital assets. Title to all University assets, whether purchased, constructed, or donated, is held by the State. Although title is not with the University for land and buildings, the University has exclusive use of these assets and is responsible for the maintenance of these assets and thus has recorded the cost of these assets in the accompanying financial statements. Capital assets, with the exception of land and land improvements, works of art and historical treasures, construction work in progress, and certain intangible assets, are depreciated or amortized on a straight-line basis over their estimated useful lives, which ranges from 3 to 45 years. Library books, unless considered rare collections, are capitalized and depreciated over a 10-year period. Periodicals and subscriptions are expensed as purchased. Works of art and historical treasures are valued at cost, if purchased, or the acquisition value (an entry price) at the date of donation, if contributed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its life are expensed as incurred.

Depreciation and amortization expense is shown separately in the Statement of Revenues, Expenses, and Changes in Net Position rather than being allocated among other categories of operating expenses.

#### (i) Unearned Revenues

Unearned revenues consist primarily of fees collected in advance for summer and fall terms and continuing education programs.

#### (j) Compensated Absences

Compensated absences are recognized, as either current or noncurrent liabilities, when the right to receive the compensation is earned by the employees from vested unpaid vacation and other paid leave programs. Unused sick leave balances are not included in the compensated absences because they do not vest to employees. Vacation is accrued on a monthly basis. The University uses an employee's current pay rate as of July 1, 2019 to calculate the liability for accrued compensated absences. The University provides vacation based on length of service and job classifications.

#### (k) Grants Refundable

The University periodically receives contributions from the federal government in support of its operation of the Federal Perkins and Nursing Loan programs, both Title IV Loan programs. The federal government has the ability to terminate its support of these programs at any time and to request that the University return those contributions on a cumulative basis, such as the Federal Perkins Loan Program which has expired in fiscal year 2018. Accordingly, the federal contributions received and retained by the University at year-end are considered liabilities of the University and are reflected as such in the accompanying Statement of Net Position.

Notes to Financial Statements

June 30, 2019

(In thousands)

#### (I) Claims Liability for Losses and Loss Adjustment Expenses

The claims liability for losses and loss adjustment expenses included in the aggregate discretely presented component units column of the financial statements includes California State University Risk Management Authority's (CSURMA) estimated ultimate cost of settling claims relating to events that have occurred on or before June 30, 2019. The liability includes the estimated amount that will be required for future payments of claims that have been reported and claims related to events that have occurred but have not been reported. The liability is also reduced by estimated amounts recoverable from the reinsurance that is related to the liabilities for unpaid claims and claim adjustment expenses. The liability is estimated through an actuarial calculation using individual case basis valuations and statistical analyses. The liability is not discounted.

Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. Adjustments to claim liabilities are charged or credited to expense in the periods in which they are made.

In the estimate of the unpaid losses and loss adjustment expenses, CSURMA and its consulting actuary have employed methods and assumptions they considered reasonable and appropriate given the information currently available. Given the inherent uncertainty in the nature of such estimates, future losses may deviate from those estimates.

## (m) Deferred Outflows of Resources and Deferred Inflows of Resources

The University classifies losses on debt refundings as deferred outflows of resources and amortizes it as a component of interest expense over the remaining life of the old debt or the new debt, whichever is shorter.

Changes in net pension liability not included in pension expense are reported as deferred outflows of resources or deferred inflows of resources. Employer contributions subsequent to the measurement date of the net pension liability are reported as deferred outflows of resources. Deferred outflows and inflows of resources related to differences between expected and actual experience and related to change in the University's proportionate share of pensionable compensation made subsequent to the measurement date are amortized over a closed period equal to the average employees' remaining service lives. The deferred outflows and inflows of resources related to differences between projected and actual earnings on pension plan investments are netted and amortized over a closed 5-year period.

Changes in total OPEB liability not included in OPEB expense are reported as deferred outflows of resources or deferred inflows of resources. Employer contributions subsequent to the measurement date of the net pension liability are reported as deferred outflows of resources. Deferred outflows and inflows of resources related to differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average employees' remaining service lives.

#### (n) Net Position

The University's net position is classified into the following categories:

 Net Investment in Capital Assets: Capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets and any related deferred outflows of resources.

Notes to Financial Statements

June 30, 2019

(In thousands)

#### Restricted:

Nonexpendable: Net position subject to externally imposed conditions that the University retains in perpetuity. Net position in this category consists of endowments held by the University or its related discretely presented component units.

Expendable: Net position subject to externally imposed conditions that can be fulfilled by the actions of the University or by the passage of time.

 Unrestricted: All other categories of net position. In addition, unrestricted net position may have legislative or bond indenture requirements associated with their use or may be designated for use by management of the University. These requirements limit the area of operations for which expenditures of net position may be made and require that unrestricted net position be designated to support future operations in these areas. University housing programs are a primary example of operations that have unrestricted net position with designated uses.

Restricted or unrestricted resources are spent based upon a variety of factors, including funding restrictions, consideration of prior and future revenue sources, the type of expenses incurred, the University's budgetary policies surrounding the various revenue sources or whether the expense is a recurring cost. Unrestricted net position is negative due primarily to liabilities for pension and retiree health benefits exceeding University assets available to pay such obligations.

## (o) Classification of Revenues and Expenses

The University considers operating revenues and expenses in the Statement of Revenues, Expenses, and Changes in Net Position to be those revenues and expenses that result from exchange transactions and from other activities that are connected directly to the University's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as nonoperating revenues and expenses in accordance with GASB Statement No. 35. These nonoperating activities include the University's capital and noncapital appropriations from the State, financial aid grants, net investment income, noncapital gifts, interest expense, capital grants and gifts, and changes in permanent endowments.

The State appropriates funds to the University on an annual basis. The appropriations are, in turn, allocated among the campuses by the Office of the Chancellor. Appropriations are recognized as revenue in general when authorization is received and are reported as either noncapital appropriations when used to support general operations or capital appropriations when used for capital projects.

Student tuition and fees revenue, and sales and services of auxiliary enterprises, including revenues from student housing programs, are presented net of scholarships and fellowships applied to student accounts. Certain other scholarship and fellowships are paid directly to, or refunded to, the student and are reflected as operating expenses.

#### (p) Total Other Postemployment Benefits (OPEB) Liability

The University records the total OPEB liability equal to its share of the State's total OPEB liability. The total OPEB liability is an actuarial accrued liability that reflects the present value of future healthcare benefits earned by employees up to June 30, 2019. The University's total OPEB liability is determined by discounting the projected benefit for current active employees and retirees based on the discount rate required by GASB Statement No. 75

Notes to Financial Statements

June 30, 2019

(In thousands)

for OPEB plans which do not have assets residing in a qualified trust. The University and the State fund their current OPEB expenses on a "pay-as-you-go" basis.

## (q) Net Pension Liability

The University records a pension liability equal to the net pension liability for its proportionate share in the State's defined-benefit plans: the State's Miscellaneous Plan and the Peace Officers and Firefighters Plan (Agent Multiple-Employer Defined-Benefit Pension Plans). The net pension liability is measured as the University's proportionate share of the State's total pension liability, less the University's proportionate share of the pension plan's fiduciary net position. The fiduciary net position and changes in net position of the cost sharing defined-benefit plans has been measured consistent with the accounting policies used by the plans.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, information about the fiduciary net position of the pension plan, and additions to/ deductions from the pension plans' fiduciary net position have been determined on the same basis as they are reported by the California Public Employees' Retirement System (CalPERS) Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Pension plan investments are reported at fair value.

## (r) Grant Revenues and Expenses

The University records grant revenue when all applicable grant eligibility requirements are met. Expenses are recorded as expenditures are incurred. Expenditure-driven grant revenue is recorded as the expenditures are incurred, in amounts equal to the expenditures.

#### (s) Internal Services Activities

Certain institutional internal service providers offer goods and services to University departments, as well as to external customers. These include activities such as copy centers, postal services, and telecommunications. All significant internal service activities provided to University departments have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the internal service sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the fiscal year.

## (t) Income Taxes

The University is an agency of the State and is treated as a governmental entity for tax purposes. As such, the University is generally not subject to federal or state income taxes. The component units are either exempt governmental entities or not-for-profit organizations exempt under IRC Section 501(c)(3). However, the University and its component units remain subject to income taxes on any net income that is derived from a trade or business, regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded. If there is net income from any unrelated trade or business, such provision, in the opinion of management, is not material to the financial statements taken as a whole.

#### (u) Eliminations

All significant nonexchange transactions between the University and its discretely presented component units have been eliminated from the total column and are separately presented in the eliminations column in the accompanying Statement of Revenues, Expenses, and Changes in Net Position.

Notes to Financial Statements

June 30, 2019

(In thousands)

## (v) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the accompanying financial statements. Actual results could differ from those estimates.

#### (3) Cash, Cash Equivalents, and Investments

The University's cash, cash equivalents, and investments as of June 30, 2019 are classified in the accompanying Statement of Net Position as follows:

Cash and cash equivalents	\$ 17,492
Restricted cash and cash equivalents	103
Total cash and cash equivalents	17,595
Short-term investments	3,765,526
Endowment investments	1,693
Other long-term investments	1,277,735
Total investments	5,044,954
Total cash, cash equivalents, and investments	\$ 5,062,549

#### (a) Cash and Cash Equivalents

At June 30, 2019, cash and cash equivalents consist of demand deposits held at the State Treasury, commercial banks, and petty cash. Total cash and cash equivalents of \$17,595 had a corresponding carrying balance with the State Treasury and commercial banks of \$21,056 at June 30, 2019. The difference was primarily related to deposits in transit and outstanding checks.

Cash in demand deposit accounts is minimized by sweeping available cash balances into the CSU Consolidated Investment Pool on a daily basis.

## (i) Custodial Credit Risk for Deposits

Custodial credit risk for deposits is the risk that in the event of the failure of the custodian, the deposits may not be returned to the University. The University deposits are maintained at financial institutions that are Federal Deposit Insurance Corporation secured. As a result, custodial credit risk for deposits is remote.

#### (b) Investments

The University's investment portfolio consists primarily of investments in the CSU Consolidated Investment Pool and SMIF. Separate accounting is maintained as to the amounts allocable to the various University funds and programs.

## (i) Investment Policy

State law and regulations require that surplus monies of the University be invested. The objectives of the University's investment policy are to safeguard the principal, to meet liquidity needs of the University, and to obtain the best possible return commensurate with the degree of risk the University is willing to assume in

Notes to Financial Statements

June 30, 2019

(In thousands)

obtaining such return. These objectives may be weighted or prioritized differently for individual portfolios depending on the purpose of the portfolio.

The University's investment policy authorizes funds held in local trust accounts under Education Code Sections 89721 and 89724 to be invested in any of the securities authorized by Government Code Section 16430, and Education Code Sections 89724 and 89725, subject to certain limitations. In general, the University's investment policy permits investments in obligations of the Federal and California state governments, certificates of deposit, high-quality domestic corporate fixed-income securities, and certain other investment instruments.

Effective January 1, 2017, changes to the Education and Government Code of the State expanded the permitted investments to include mutual funds, including equity mutual funds, subject to registration by, and under the regulatory authority of the United States Securities and Exchange Commission (SEC), or in United States registered real estate investment trusts, resulting in the establishment of the CSU Total Return Portfolio (TRP). Under State law, investment of funds in the TRP is subject to the University meeting certain conditions regarding investment oversight, reporting, and use of earnings, and is to be phased in at no more than \$600,000 as of June 30, 2019, and thirty percent of eligible investments thereafter. TRP investments amounted to \$559,192 as of June 30, 2019.

Additional earnings (if any) from TRP investments shall be used only for capital outlay or maintenance, and shall not be used for ongoing operations.

#### (ii) Interest Rate Risk

Interest rate risk is the risk that fluctuations in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The University's investment guidelines manage its interest rate risk by limiting an eligible investment to maximum effective maturity and by limiting the average duration of the portfolio, however, there are no restrictions on the duration for the investments in the TRP. The effective maturity date reflects a bond with embedded options such as a call, put, or reset date, and prepayment speed resulting in the maturity of a bond being less than the final maturity date. Duration is a measure of the sensitivity of the price of an investment relative to fluctuations in market interest rates. Durations of the University's investment portfolio for each investment type, except for SMIF in which weighted average life is used, as of June 30, 2019 are presented in the following table:

Notes to Financial Statements

June 30, 2019

(In thousands)

Investment type	Fair value	Duration
Money market funds	\$ 28,638	
Repurchase agreements	10,352	0.00268
Certificates of deposit	151,165	0.12452
U.S. agency securities	1,053,102	0.58573
U.S. Treasury securities	1,197,884	1.25118
Municipal bonds	49,911	0.19506
Corporate bonds	1,008,970	1.02102
Asset-backed securities	152,372	0.50418
Mortgage-backed securities	202	1.99645
Mutual funds	561,637	5.48082
SMIF	 830,721	0.47397
Total	\$ 5,044,954	

Another way the University manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or nearing maturity over time as necessary to provide cash flow and liquidity needed for operations.

## (iii) Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

The University, except for investments in the TRP, invests in low credit risk securities such as U.S. government securities, securities of federally sponsored agencies, highly rated domestic corporate bonds, prime-rated commercial paper, repurchase and reverse repurchase agreements, banker's acceptance, and negotiable certificates of deposit. Therefore, the credit risk is low and occurrence of default risk is remote.

Investments in the TRP include SEC registered mutual funds invested per a target asset allocation which includes investment grade bonds, higher credit risk bonds (i.e. high yield bonds, bank loans, and emerging market bonds), equities and real assets. Risk for the TRP is viewed holistically and in the context of the overall CSU Consolidated Investment Pool, incorporating quantitative and qualitative assessments into oversight of the TRP. The University accepts a level of risk commensurate with the long-term investment goals of the TRP. The mutual fund investment managers are responsible for assessing the credit risk of the individual securities held in the mutual funds for the TRP. Moreover, certain passive index funds in the TRP will seek to replicate the credit risk of the underlying indices to which the index funds are benchmarked.

Ratings of the University's investment portfolio for each investment type as of June 30, 2019 are presented in the following table:

Notes to Financial Statements

June 30, 2019

(In thousands)

Investment type	Fair value	AAA	AA	Α	BBB	ВВ	В	Not rated
Money market funds	\$ 28,638	_			_			28,638
Repurchase agreements	10,352	10,352	_	_	_	_	_	_
Certificates of deposit	151,165	58,994	3,445	88,726	_	_	_	_
U.S. agency securities	1,053,102	37,879	1,015,223	_	_	_	_	_
U.S. Treasury securities	1,197,884	_	1,197,884	_	_	_	_	_
Municipal bonds	49,911	19,813	27,524	2,574	_	_	_	_
Corporate bonds	1,008,970	7,779	113,792	877,282	10,117	_	_	_
Asset-backed securities	152,372	152,372	_	_	_	_	_	_
Mortgage-backed securities	202	_	202	_	_	_	_	_
Mutual funds	561,637	30,826	120,919	_	_	8,407	57,975	343,510
SMIF	830,721							830,721
Total	\$5,044,954	318,015	2,478,989	968,582	10,117	8,407	57,975	1,202,869

The mutual funds credit ratings are based on average credit ratings of the underlying mutual funds. Credit ratings for mutual fund related to equity and real estate asset are not applicable.

By law, the SMIF only invests in U.S. government securities, securities of federally sponsored agencies, domestic corporate bonds, interest-bearing time deposits in California banks, savings and loan associations and credit unions, prime-rated commercial paper, repurchase and reverse repurchase agreements, security loans, banker's acceptances, negotiable certificates of deposit, and loans to various bond funds.

## (iv) Concentration Risk

Concentration risk rises as investments become concentrated relative to a portfolio characteristic such as issuance, issuer, market sector, counterparty, or sovereign nation, and is best mitigated by diversification. The University's investment policy has concentration limits that provide sufficient diversification. As such, the concentration risk is remote.

As of June 30, 2019, the following investments (excluding U.S. Treasury securities, mutual funds, and external investment pools) represented 5% or more of the University's investment portfolio: Federal Home Loan Banks (\$445,939 or 8.84%) and Federal National Mortgage Association, Inc. (\$300,631 or 5.96%).

Notes to Financial Statements

June 30, 2019

(In thousands)

#### (v) Risk and Uncertainties

The University may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that the changes could materially affect the amounts reported in the Statement of Net Position.

The University, through the CSU Consolidated Investment Pool, invests in securities with contractual cash flows, such as asset-backed securities and mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

## (vi) Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the custodian, the investments may not be returned to the University. Substantially all of the University's securities are registered in the University's name by the custodial bank as an agent for the University. As a result, custodial credit risk for such investments is remote.

## (vii) Fair Value Measurements

The University uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine the fair value disclosures. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including discount rates and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The University groups its assets and liabilities measured at fair value in three levels, based on markets in which the asset and liabilities are traded and the reliability of the assumptions used to determine fair value. The level in the fair value hierarchy with which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the University has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset and liability. This valuation is accomplished using
  management's best estimate of fair value, with inputs into the determination of fair value that require
  significant management judgment or estimation.

Notes to Financial Statements

June 30, 2019

(In thousands)

The following table presents investments that are measured at fair value on a recurring basis at June 30, 2019:

Investment type	_ <u>F</u>	air value	Level 1	Level 2	NAV
Money market funds	\$	28,638	_	_	28,638
Repurchase agreements		10,352	_	10,352	_
Certificates of deposit		151,165	_	151,165	_
U.S. agency securities		1,053,102	_	1,053,102	_
U.S. Treasury securities		1,197,884	_	1,197,884	_
Municipal bonds		49,911	_	49,911	_
Corporate bonds		1,008,970	_	1,008,970	_
Asset-backed securities		152,372	_	152,372	_
Mortgage-backed securities		202	_	202	_
Mutual funds		561,637	561,637	_	_
SMIF		830,721		_	830,721
Total	\$	5,044,954	561,637	3,623,958	859,359

The following discussions describe the valuation methodologies used for financial assets and liabilities measured at fair value. The techniques utilized in estimating the fair value are affected by the assumptions used.

Investments are classified in Level 1 as fair value is obtained at the last sale price on the last business day of the current fiscal year, as quoted on a recognized exchange or an industry standard pricing, when available. Investments for which no sale was reported as of the close of the last business day of the current fiscal year are valued at the quoted bid price provided by the University's external investment managers or their custodians.

Investments are classified in Level 2 as fair value is calculated using valuations that include observable market quoted prices for similar assets or liabilities. Observable inputs other than quoted prices such as price services or indices, estimates, appraisals, assumptions, and other methods that are reviewed by management. Changes in market conditions and economic environments may impact the net asset value (NAV) and consequently, the fair value of the University's interests in the funds.

There were no assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3).

Certain money market funds are not categorized under the fair value hierarchy and are shown at NAV. These investments are measured at amortized cost when calculating NAV per share (or its equivalent) of the investment.

Notes to Financial Statements

June 30, 2019

(In thousands)

#### (viii) Foreign Currency Risk

Foreign Currency Risk, also known as exchange rate risk, is the risk arising from fluctuations in the value of a base currency (U.S. dollar) against foreign currencies related to the underlying currency denomination of securities held for investment.

The majority of the Consolidated Investment Pool is invested in U.S. dollar denominated securities without foreign currency risk.

However, the TRP includes allocations to non-U.S. equities and non-dollar-denominated bonds in the underlying mutual funds for the TRP. The TRP Investment Policy includes an asset allocation policy with targets and acceptable ranges for each asset class included in the TRP, including non-U.S. equity and emerging markets bonds. Additionally, mutual funds utilized in other asset classes within the TRP may also have some foreign currency exposure.

## (viii) Discretely Presented Component Units' Investments

Investments of the discretely presented component units at fair value consisted of the following at June 30, 2019:

Investment type	Current	Noncurrent	Total
Money market funds	\$ 39,781	36,118	75,899
Repurchase agreements	141	5	146
Certificates of deposit	19,691	23,784	43,475
U.S. agency securities	15,515	11,638	27,153
U.S. Treasury securities	112,381	25,341	137,722
Municipal bonds	1,972	11,153	13,125
Corporate bonds	62,569	96,766	159,335
Asset-backed securities	2,079	9,979	12,058
Mortgage-backed securities	20	19,574	19,594
Mutual funds	208,751	976,549	1,185,300

(In thousands)

#### (8) Lease Obligations

The University is obligated under various capital and operating leases and installment purchase agreements for the acquisition of equipment and facility rentals. A substantial amount of the capital leases are a result of the University's participation with the State in the SPWB Lease Revenue Bond program. The University has participated in this program since 1986 in connection with the construction of campus facilities and related equipment.

As part of the annual budget process, the State of California Department of Finance augments the University's operating budget to provide additional funds for the required lease payments. The capital lease obligations related to the SPWB Lease Revenue Bond program amounted to \$149,180 at June 30, 2019. Total capital assets related to these capital leases have a carrying value of \$176,503 at June 30, 2019. The leases have terms expiring in various years through 2035. The University also enters into capital leases with financial institutions and via commercial paper issued by the California State University Institute (the Institute), a discretely presented component unit of the University. These capital leases consist primarily of leases of campus facilities, but also include certain computer, energy efficiency equipment, and telecommunications equipment. Total capital assets related to these capital leases have a carrying value of \$172,134 at June 30, 2019. The leases bear interest at rates ranging from 0.04% to 10% and have terms expiring in various years through 2041.

Operating leases consist primarily of leases for the use of real property. The University's operating leases expire in various years through 2099. The leases can be canceled if the State does not provide adequate funding. Some of these leases are with discretely presented component units for the rental of office space used in the operations of the University. Total operating lease expenditures for the year ended June 30, 2019 were \$33,888 of which \$23,074 was paid to related discretely presented component units.

Future minimum lease payments under capital and operating leases having remaining terms in excess of one year as of June 30, 2019 are as follows:

#### (9) Long-Term Debt Obligations

## (a) State's General Obligation Bond Program

The General Obligation Bond program of the State has provided capital outlay funds for the three segments of California Higher Education through voter-approved bonds. Each of the approved bond programs provides a pool of available funds, which is allocated on a project-by-project basis among the University, the University of California, and the Community Colleges. Financing provided to the University through the State's General Obligation Bonds is not allocated to the University by the State. This debt remains as obligation of the State and is funded by state tax revenues. Accordingly, such debt is not reflected in the accompanying financial statements. The total General Obligation Bonds carried by the State related to the University projects is approximately \$2,141,932 as of June 30, 2019.

## (b) Systemwide Revenue Bond Program

The State University Revenue Bond Act of 1947, Sections 90010 through 90091 of the Education Code of the State of California (the Bond Act) authorizes the Trustee to issue revenue bonds to finance projects that support the University's educational mission. The University's financing program, referred to as the SRB Program, is designed to provide lower cost debt and greater flexibility to finance projects at the University than would be possible if projects were financed separately. Rather than relying on specific pledged revenues to support specific debt obligations, the SRB program pools multiple sources of revenue as the security for the debt. The University's total outstanding balance of revenue bond indebtedness under the SRB program was \$6,211,333 at June 30,

Notes to Financial Statements

June 30, 2019

(In thousands)

2019. Under the Bond Act authority, the University has constructed or acquired facilities located at its 23 campuses and the Office of the Chancellor.

In 2014, the State enacted legislation that granted additional capital financing authorities to the University, leading to the SRB program expanding to allow the financing of academic facilities and energy conservation projects. Allowable academic projects include construction and equipping of new and existing academic facilities; infrastructure; deferred maintenance; and refunding of SPWB lease revenue bonds (which funded the construction of certain academic facilities of the University).

Systemwide Revenue Bonds are not secured by mortgages on the facilities constructed or acquired and therefore the facilities do not act as security for the debt. Revenues pledged under the SRB program include program fees from continuing education, health center facilities, housing, parking, and student union; student tuition and fees; and designated auxiliary revenues, net of maintenance and operation expenses before extraordinary items (net income available for debt service), to repay the bonds.

The SRB Indenture (The Indenture) contains provisions that define events of default related to punctuality of the payment of the outstanding principal and interest. Additionally, the Indenture describes the process for which other events of default by the Board related to covenants, agreements, or conditions of the Indenture occur for a period of sixty (60) days after written notice by bondholders (of not less than twenty-five percent (25%) in aggregate principal amount of the bonds outstanding) requiring remediation. Further, the Indenture specifies the process which the Trustees may undertake, at the request of the majority of the bondholders, to declare the principal of all of the bonds then outstanding and the interest accrued to be immediately due and payable.

#### (c) Bond Anticipation Notes

The Trustees have authorized the issuance of BANs to provide short-term financing to the University for certain projects. The BANs are purchased by CSU Institute with proceeds from the commercial paper issued by the Institute. The BANs are generally issued for periods of up to three years in anticipation of issuing permanent revenue bonds at a future date. State law was amended in 2008 to allow BAN maturities to extend beyond three years and the maturity date for the issuance of BANs to be determined by the Trustees. BAN interest is variable and changes based upon the cost of the Institute's commercial paper program. The maximum and minimum weighted average interest rates for the year ended June 30, 2019 were 2.25% and 1.27%, respectively. The University's BANs totaled \$109,659 at June 30, 2019. The authorized amounts totaled \$868,630, of which \$756,950 has not been issued and \$111,680 has been issued.

CSU Institute, a discretely presented component unit of the University, manages the commercial paper program. The commercial paper program is bound by certain agreements, including the Trust Indenture with the Trustee/paying agent and the Reimbursement Agreement with the letter of credit banks. Under certain provision of the Trust Indenture, in the event of a default, the Trustees shall take actions set forth by the BAN Resolution to effect the sale of long-term bonds to refinance outstanding BANs. Upon the occurrence of certain events of default specified in the Reimbursement Agreement, the right of the CSU Institute and the University to issue notes may be terminated or be suspended by the banks.

Notes to Financial Statements

June 30, 2019

(In thousands)

Long-term debt obligations of the University as of June 30, 2019 consisted of the following:

Description	Interest rate percentage	Final maturity date	Original issue amount	 Amount outstanding
Systemwide Revenue Bonds:				
Housing Series J - K	3.00%	2019/20	\$ 8,558	\$ 363
Housing Series L - M	3.00	2020/21	5,510	475
Housing Series N & Q	3.00	2021/22	6,695	700

Long-term debt principal and interest are payable in the following fiscal years:

		Principal	Interest
Fiscal year ending June 30:	<u> </u>		
2020	\$	171,813	289,485
2021		168,576	282,251
2022		180,706	273,950
2023		183,742	265,197
2024		189,480	256,591
2025 - 2029		1,085,177	1,139,361
2030 - 2034		1,257,982	858,027
2035 - 2039		1,214,935	562,105
2040 - 2044		973,495	303,031
2045 - 2049		731,820	101,741
Thereafter		173,312	8,548
	\$	6,331,038	4,340,287

Long-term debt obligations of the individual discretely presented component units have been issued to purchase or construct facilities for University-related uses. For additional information regarding long-term debt obligations of the individual discretely presented component units, refer to their separately issued financial statements.

The Board of Trustees does not have a specified debt limit or debt margin, as noted in the University's Policy for Financing Activities. However, the Board finds it appropriate to establish the lowest cost debt financing programs for the University, and to use the limited debt capacity in the most prudent manner.

As of June 30, 2019, the Board had approved SRB and BANs that were authorized but unissued in the aggregate principal amount of \$2,026,108 for projects including academic, infrastructure, housing, and parking facilities. As of June 30, 2019, there are approximately \$470,840 of remaining authorized and unissued debt for the purpose of refunding certain bonds of the SPWB not previously refunded. The Board may issue all or a portion of these authorized bonds as well as other additional bonds for other new money projects or refunding purposes. The Board expects to authorize the issuance of additional Systemwide Revenue Bonds from time to time in the future. There is no limit on the amount of SRB that the Board may authorize.

#### (10) Long-Term Debt Refunding

In August 2018, the University issued SRB Series 2018A (Tax-Exempt), a portion of the proceeds was applied for a current refunding of SRB Series 2008A. The defeasance will reduce the University's total financing cost by approximately \$2,079 over the life of the refunded bonds. The economic gain (difference between net present values of the debt service payments on the old debt and new debt) from these transactions was approximately \$1,733. Accordingly, the refunded bonds have been considered defeased and, therefore, removed as a liability from the accompanying financial statements. The total par amount of bonds outstanding as of date of refunding totaled \$10,335. The entire outstanding balance was paid as of June 30, 2019.

component units amounting to \$348,250 included in notes payable and \$52,130 in other long-term debt obligations as of June 30, 2019.

The University has also entered into capital lease agreements with certain discretely presented component units using proceeds from issuance of SRB and BANs to lease existing and newly constructed facilities to the discretely presented component units amounting to \$210,092 as of June 30, 2019.

For additional information regarding the long-term liabilities of the individual discretely presented component units of the University, refer to their separately issued financial statements.

## (12) Pension Plan

## (a) Pension Plan Description

The University participates in the State's Public Employee's Retirement Fund A (PERF A). PERF A is comprised of agent multiple-employer plans, which includes the State. CalPERS acts as an investment and administrative agent for participating employers. State employees served by PERF A includes the University's Miscellaneous Tier 1 employees and Peace Officers and Firefighters.

## (b) Benefits Provided

The plan also provides survivor, death, and disability benefits. Eligible employees are covered by the Public Employees' Medical and Hospital Care Act (PEMHCA) for medical benefits. The benefit provisions are established by the Public Employee's Retirement Law (PERL) and the Public Employees' Pension Reform Act of 2013 (PEPRA).

A full description of the pension plans regarding numbers of employees covered, benefit provision, assumptions, and membership information are listed in the June 30, 2017 State Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the actuarial valuation report.

In general, retirement benefits are based on a formula using member's years of service credit, age at retirement, and final compensation (average salary for a defined period of employment). Retirement formulas vary based on:

- Classification (e.g., miscellaneous or peace officers and firefighters)
- Membership category (pre-PEPRA and post-PEPRA); and
- Specific provisions in employees' contracts.

CalPERS issues a publicly available Actuarial Valuation Report and Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. Copies of the CalPERS Actuarial Valuation Report and CAFR may be obtained at www.CalPERS.ca.gov or from the California Public Employees' Retirement System Executive Office, 400 P Street, Sacramento, CA 95814.

## (c) Pensionable Compensation

For the University, the plan acts as cost sharing multiple-employer defined-benefit pension plan, which provides a defined-benefit pension and postretirement program for substantially all eligible University employees. The University's proportion of the State's net pension liability was calculated based on its proportionate share of the State's pensionable compensation. The pensionable compensation has a measurement period of July 1, 2017 through June 30, 2018.

Notes to Financial Statements

June 30, 2019

(In thousands)

#### (d) Contributions

Section 20814(c) of the PERL requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions.

For the measurement period ended June 30, 2018, the average State's active employee contribution rates for State Miscellaneous and Peace Officer and Firefighters Plans are 6.77% and 11.41% of annual payroll, respectively. For the measurement period ended June 30, 2018, the State's contribution rates for State Miscellaneous and Peace Officer and Firefighters Plans are 28.40% and 44.25% of annual payroll, respectively.

State Miscellaneous Plan members of the University are required to contribute 5% of their annual earnings in excess of \$513 per month to CalPERS. Effective January 1, 2013, all new University employees that are considered "new members" to CalPERS are required to contribute 50% of the normal cost for their category (e.g., State Miscellaneous Plan members contribute 7.25% of their annual earnings per month to CalPERS). The University is required to contribute at an actuarially determined rate.

State Peace Officers and Firefighters Plan members of the University are required to contribute 8% of their annual earnings in excess of \$238 per month to CalPERS. Effective January 1, 2013, all new University employees that are considered "new members" to CalPERS are required to contribute 50% of the normal cost for their category (e.g., State Peace Officers and Firefighters Plan members contribute 11% of their annual earnings per month to CalPERS). The University is required to contribute at an actuarially determined rate.

The contribution requirements of the plan members are established and may be amended by CalPERS. The contractual maximum contribution required for the University is determined by the annual CalPERS compensation limit(s), which are based on provisions of Assembly Bill (AB) 340 and the IRC 401(a) 17 limits. The University's contributions to CalPERS for the most recent three fiscal years ended June 30 were equal to the required contributions and were as follows:

	University'	s contributions
Fiscal year ending June 30:		
2019	\$	928,987
2018		1,734,716
2017		757,170

In 2018, the State made a supplemental pension contribution of \$876,842 to CalPERS on behalf of the University as authorized by Government Code Section 20825. The University shall repay \$156,283 amount contributed through June 30, 2030, while the remainder was recognized as State appropriations, noncapital in 2018.

Notes to Financial Statements

June 30, 2019

(In thousands)

## (e) Actuarial Methods and Assumptions

The total pension liability was measured as of June 30, 2018 (measurement date), by rolling forward the total pension liability determined by the June 30, 2017 actuarial valuation (valuation date), based on the following actuarial methods and assumptions:

Valuation date:	June 30, 2017
Actuarial cost method: Actuarial assumptions:	Entry age normal in accordance with the requirements of GASB Statement No. 68
Discount rate	7.15%
Inflation	2.50%
Salary increases	Varies by entry age and service
Investment rate of return	7.15%, net of pension plan investment expense but without reduction for administrative expenses including inflation
Mortality rate of return	Derived using CalPERS' membership data for all funds
Postretirement benefit increase:	Contract cost of living allowance up to 2.00% until purchasing power protection allowance floor on purchasing power applies; 2.50% thereafter

The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 CalPERS Experience Study and Review of Actuarial Assumptions report (Experience Study), based on CalPERS demographic data from 1997 to 2015. The Experience Study report can be obtained from www.CalPERS.ca.gov under Forms and Publications.

#### (f) Discount Rate

The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress-tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the plans tested, none of the plan assets were exhausted. Therefore, the current 7.15% discount rate is appropriate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.15% is applied to all plans in the PERF. The cash flows used in the testing were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. The stress test result is presented in the GASB Crossover Testing Report, which can be obtained from www.CalPERS.ca.gov under GASB Statement No. 68 section.

## (g) Investment Rate of Return

The long-term expected rate of return on pension plan investments of 7.15% was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, but without reduction for administrative expenses, and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Taking into account historical returns of all the PERF's asset classes (which includes the agent plant and two cost-sharing plans), expected compound

Notes to Financial Statements

June 30, 2019

(In thousands)

(geometric) returns were calculated over the short term (first 10 years) and the long term (11–60 years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each PERF fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation used to measure the total pension liability.

Asset class	Current target allocation	Real return years 1–10¹ <u>%</u>	Real return years 11-60 <sup>2</sup>
Global equity	50	4.80	5.98
Fixed income	28	1.00	2.62
Inflation assets	0	0.77	1.81
Private equity	8	6.30	7.23
Real estate	13	3.75	4.93
Liquidity	1	0.00	(0.92)
Total	100		

<sup>&</sup>lt;sup>1</sup> An expected inflation of 2% used for this period

# (h) Sensitivity of the University's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the University's proportionate share of net pension liability of the State Miscellaneous and Peace Officers and Firefighters Plans (collectively the Plans) as of the measurement date, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower (6.15%) or one-percentage point higher (8.15%) than the current rate:

Plan	 Discount rate discount rate -1% (6.15%) (7.15%)		Discount rate + 1% (8.15%)
Miscellaneous Plan	\$ 10,852,766	7,570,177	4,819,309
Peace Officers and Firefighters Plan	240,703	163,074	99,482
Net pension liability	\$ 11,093,469	7,733,251	4,918,791

#### (i) Changes in Net Pension Liability

The University reported a liability of \$7,733,251 for its proportionate share of the State's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined based on an actuarial valuation as of June 30, 2017 rolled forward to the measurement date. The University's proportion of the State's net pension liability was calculated based on its

<sup>&</sup>lt;sup>2</sup> An expected inflation of 2.92% used for this period

Notes to Financial Statements

June 30, 2019

(In thousands)

proportionate share of the State's pensionable compensation. The State considered this a practical, systematic, and rational approach. At measurement date June 30, 2018, the University's proportionate share of the total State net pension liability for the State Miscellaneous and Peace Officers and Firefighters Plans were 24.09757% and 1.17223%, respectively.

The following table presents the changes in net pension liability of the University recognized over the measurement period for the Plans:

	Miso	State cellaneous Plan	State Peace Officers and Firefighters Plan	Total
Balance at June 30, 2017 (measurement date)	\$	8,723,068	176,894	8,899,962
Changes in proportionate share		81,105	2,035	83,140
Balance at June 30, 2017, adjusted		8,804,173	178,929	8,983,102
Changes recognized for the measurement period:

Balance at June 30, 2018 (measurement date)	\$	7,570,176	163,075	7,733,251

#### (j) Pension Plan Fiduciary Net Position

The plan fiduciary net position disclosed in the GASB Statement No. 68 accounting valuation report may differ from the plan assets reported in the funding actuarial valuation report due to several reasons. For example, for the accounting valuations, CalPERS must keep items such as deficiency reserves and fiduciary self-insurance included as assets. These amounts are excluded for rate setting purposes in the funding actuarial valuation.

#### (k) Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pension

The University recognized pension expense of \$1,256,584 for State Miscellaneous Plan and \$30,112 for State Peace Officers and Firefighters Plan, which were reported as benefits expense.

The following table presents deferred outflows and inflows of resources as of June 30, 2019. Deferred outflows and inflows of resources are recognized for the difference between expected and actual experience and changes in assumptions. Deferred outflows of resources are recognized for the University's retirement contributions made subsequent to the measurement date of June 30, 2018 which will be recognized as a reduction of the net pension

Notes to Financial Statements

June 30, 2019

(In thousands)

liability in the next measurement date. Net deferred outflows of resources are recognized for the aggregate difference (positive and negative) between projected and actual earnings on pension plan investments arising in different measurement periods. Net deferred outflows of resources are recognized for changes in the University's proportionate share of pensionable compensation.

	 red outflows of resources	Deferred inflows of resources	
University's retirement contributions subsequent to the measurement date	\$ 928,987	_	
Differences due to changes in assumptions	701,691	251,227	
Net differences between projected and actual earnings on pension plan investments	79,471	_	
Differences due to changes in proportionate share	207,813	_	
Differences between expected and actual experience	 85,356	54,809	
Total	\$ 2,003,318	306,036	

The deferred outflows of resources will be recognized as pension expense as follows:

#### (13) Other Postemployment Benefits (OPEB)

#### (a) OPEB Plan Description

The State provides retiree health and dental benefits to annuitants of retirement systems through an agent multiple-employer defined benefit plan which operates as a single-employer defined benefit plan for the University. The design of health and dental benefit plans can be amended by CalPERS Board of Administration and the California Department of Human Resources (CalHR), respectively.

To be eligible for these benefits, first-tier plan annuitants must retire on or after age 50 with at least five years of service, and second-tier plan annuitants must retire on or after age 55 with at least 10 years of service. In addition, annuitants must retire within 120 days of separation from employment to be eligible to receive these benefits.

# (b) Benefits Provided

For healthcare benefits, CalPERS offers Preferred Provider Organizations (PPOs), Health Maintenance Organizations (HMOs), and Exclusive Provider Organizations (EPOs) (limited to members in certain California counties). For dental benefits, a Dental Maintenance Organization (DMO) and dental indemnity plans are offered to the University's retirees. Health plans offered, covered benefits, monthly rates, and co-payments are determined by the CalPERS Board of Administration, which reviews health plan contracts annually. At measurement date, the count of retired and active employees covered by the benefit terms were:

	Headcount
Retirees elected to receive healthcare benefits	30,757
Active employees	47,995
Total	78,752

#### (c) Contributions

The contribution requirements of retirees and the State are established and may be amended by the State legislature. For healthcare benefits, the State makes a contribution toward the retiree's monthly health premiums, with the retirees covering the difference between the State's contribution and the actual healthcare premium amount. The State contribution is normally established through collective bargaining agreements. No retiree contribution is required for dental benefits.

For healthcare benefits, responsibility for funding the cost of the employer share of premiums is apportioned between the State and the University based on "billable" and "nonbillable" accounts. Billable accounts have special revenue sources such as fees, licenses, penalties, assessments, and interest, which offset the costs incurred by a State department during the year. The University reimburses the State for retiree's health benefit costs allocated to billable accounts but not for costs allocated to nonbillable accounts. The University is responsible for funding the costs of the billable accounts on a pay-as-you-go basis as part of the statewide general administrative costs charged to the University. The State is responsible for funding the cost of the employer share of healthcare premiums of retirees for all nonbillable accounts. Historically, the State has funded approximately 95% of the cost of the benefits.

The University is responsible for paying the cost of dental benefits for all University retirees using funds provided by the State through general fund appropriations. The University makes payments directly to Delta Dental for the

Notes to Financial Statements

June 30, 2019

(In thousands)

retiree's monthly dental premiums. The University is paying these benefits on a pay-as-you-go basis. The State's contribution to the retirees' health benefits are recorded as State appropriations, noncapital.

In addition to the explicit University contribution provided to retirees, there is an "implicit rate subsidy". The gross premium for retired members not eligible for Medicare who are charged a premium based on the experience of both active and retired members will be receiving a subsidy because the average healthcare costs of retired members is generally higher than the blended average costs of a group comprised of both active and retired members. The subsidy is referred to as the implicit rate subsidy. The implicit subsidy associated with the retiree health costs paid during the past year is also considered to be a contribution from the University.

#### (d) Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used are consistent with a long-term perspective and involve estimates of the value of reported benefits and assumptions about the probability of occurrence of events far into the future.

Significant actuarial methods and assumptions used to calculate the University's total OPEB liability were:

Valuation date:	June 30, 2018
Actuarial cost method:	Entry Age Normal Actuarial Cost Method and the blended discount rates in accordance with the requirements of GASB Statement No. 75
Actuarial assumptions:	
Discount rate	3.62%
Price inflation	2.50%
Wage inflation	2.75%
Healthcare-related:	Based on an experience review for the period July 1, 2007 to June 30, 2014, performed by State Actuary, which were first adopted beginning with the June 30, 2015 actuarial valuation. Assumptions were updated based on experience through June 30, 2017
Healthcare trend rate:	
Pre-Medicare cost trend rate	7.5%, graded down to an ultimate 4.5% over 6 years
Post-Medicare cost trend rate	8.0%, graded down to an ultimate 4.5% over 7 years
Participation rate	On average approximately 95% of all eligible retirees elect healthcare coverage
Per capita claim costs	A retiree healthcare actuarial valuation depends on the retired member's expected healthcare claim at a given age indexed for healthcare inflation
Pension-related:	Assumptions were updated based on the December 2017 Experience Study conducted by CalPERS which includes rates of decrement, salary increase rates, and economic assumptions. Assumptions were first adopted beginning with the June 30, 2018, actuarial valuation

The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 CalPERS Experience Study and Review of Actuarial Assumptions report (Experience

Notes to Financial Statements

June 30, 2019

(In thousands)

Study), based on CalPERS demographic data from 1997 to 2015. The Experience Study report can be obtained from www.CalPERS.ca.gov under Forms and Publications.

#### (e) Sensitivity of the University's Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

One of the key assumptions influencing costs is the assumed growth or trend in healthcare costs. The healthcare trend assumption for OPEB actuarial valuations spans over the lifetime of a covered retiree, which could extend to over 30 years. This is in contrast to the short-term healthcare inflation used to develop premiums for the next fiscal year. This long-term healthcare assumption is by far the most difficult to set.

The following table presents the University's total OPEB liability as of the measurement date, calculated using the ultimate trend rate of 4.50%, as well as what the total OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower (3.5%) or one-percentage point higher (5.5%) than the current rate:

	 Trend rate -1% (3.5%)	Current trend rate (4.5%)	Trend rate + 1% (5.5%)
Total OPEB liability	\$ 11,525,389	13,128,996	15,171,779

#### (f) Discount Rate

The discount rate used to estimate the total OPEB liability as of measurement dates June 30, 2018 and 2017 was 3.62% and 3.56%, respectively. The discount rates were based on Fidelity Index's 20-Year Municipal GO AA Index since the University has no plan assets sufficient to make benefit payments.

# (g) Sensitivity of the University's Total OPEB Liability to Changes in the Discount Rate

The following table presents the University's total OPEB liability as of the measurement date, calculated using the discount rate of 3.62%, as well as what the total other postemployment benefits liability would be if it were calculated using a discount rate that is one-percentage point lower (2.62%) or one-percentage point higher (4.62%) than the current rate:

	Discount rate -1% (2.62%)		Current discount rate (3.62%)	Discount rate + 1% (4.62%)
Total OPEB liability	\$	15,372,355	13,128,996	11,329,989

Notes to Financial Statements

(In thousands)

#### (h) Changes in Total OPEB Liability

The following table presents the changes in total OPEB liability of the University recognized over the measurement period:

Balance at June 30, 2017 (Measurement Date)	\$ 13,918,525
Changes recognized for the measurement period:	
Service cost	680,934
Interest on total OPEB liability	513,512
Recognized changes of assumptions	(519,714)
Differences between expected and actual experience (non-investment)	(1,111,239)
Employer contribution	(353,022)
Net changes	(789,529)
Balance at June 30, 2018 (Measurement Date)	\$ 13,128,996

#### (i) OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

The University recognized OPEB expense of \$721,167 which was reported as benefits expense.

The following table presents deferred outflows and inflows of resources. Deferred outflows of resources are recognized for the University's retirement contributions made subsequent to the measurement date of June 30, 2018 which will be recognized as a reduction of total OPEB liability on the subsequent measurement date. The deferred inflows of resources are recognized for the change in assumptions.

	 ed outflows of esources	Deferred inflows of resources
University's contributions subsequent to the measurement date	\$ 362,261	_
Differences due to changes in assumptions	_	1,625,833
Differences between expected and actual experience (non-investment)	 <u> </u>	956,271
Total	\$ 362,261	2,582,104

The University's contributions subsequent to the measurement date includes \$326,113 contributed by the State on behalf of the University as authorized by Government Code Section 22871. The State's contributions are recognized as State appropriations, noncapital.

The deferred inflows of resources due to changes in assumptions will be recognized as OPEB expense as follows:

# Decrease in OPEB expenses arising from changes of assumptions (measurement dates)

Measurement Period ended June 30	Initial difference	Recognition period (year)	2020	2021	2022	2023	2024	2025	2026	Total

#### (14) Deferred Outflows and Inflows of Resources

The composition of deferred outflows and inflows of resources at June 30, 2019 is summarized as follows:

	 ed outflows of esources	Deferred inflows of resources
Related to:		
Net pension liability (note 12)	\$ 2,003,318	306,036
Total other postemployment benefits liability (note 13)	362,260	2,582,104
Unamortized loss on SRB debt refunding	 91,210	_
Total	\$ 2,456,788	2,888,140

#### (15) Claims Liability for Losses and Loss Adjustment Expenses

The University and certain auxiliary organizations have established the CSURMA, a discretely presented component unit of the University, to centrally manage workers' compensation, general liability, industrial and nonindustrial disability, unemployment insurance coverage, and other risk-related programs. The claims liability included in the discretely presented component unit column reflects the estimated ultimate cost of settling claims related to events that have occurred on or before June 30, 2019. The liability includes estimated amounts that will be required for future payments of claims that have been reported and claims related to events that have occurred but have not yet been reported. The liability is also reduced by estimated amounts recoverable from the reinsurer that are related to the liabilities for unpaid claims and claim adjustment expenses. The liability is estimated through an actuarial calculation using individual case basis valuations and statistical analyses. Although considerable variability is inherent in such estimates, management believes that the liability is a reasonable estimate at June 30, 2019.

The information of the change in claims liability for losses and loss adjustment expenses may be obtained from the separate financial statements issued for CSURMA.

#### (16) Commitments and Contingencies

The State is a defendant in multiple lawsuits involving University matters not covered by the CSURMA as discussed in note 15. Management of the University is of the opinion that the liabilities, if any, arising from litigation will not have a material effect on the financial position of the University.

Federal grant programs are subject to review by the grantor agencies, which could result in requests for reimbursement to grantor agencies for disallowed expenditures. Management believes that it has adhered to the terms of its grants and

Notes to Financial Statements

June 30, 2019

(In thousands)

that any disallowed expenditures resulting from such reviews would not have a material effect on the financial position of the University.

Authorized but unexpended costs for construction projects as of June 30, 2019 totaled \$1,005,007. These expenditures will be funded primarily by State appropriations and bond proceeds.

In order to secure access to electricity used for normal operation, the University participates in forward purchase contract of electricity operated by Shell Energy North America. The University's obligations under these special purchase arrangements require it to purchase an estimated total of \$14,768 of electricity at fixed prices through December 2020. The University estimates that the special purchase contract in place represent approximately 10.82% of its total annual electricity expenses.

# (17) Classification of Operating Expenses

The University has elected to report operating expenses by functional classification in the Statement of Revenues, Expenses, and Changes in Net Position, and to provide the natural classification of those expenses as an additional disclosure. For the year ended June 30, 2019, operating expenses by natural classification consisted of the following:

	Salaries	Benefits	Scholarships and fellowships expense	Supplies and other services	Depreciation and amortization	Total operating expenses
Instruction	\$ 1,947,517	1,448,746	_	218,376	_	3,614,639

#### (18) Transactions with Related Entities

The University is an agency of the State and receives approximately 43% of total revenues through state appropriations. State appropriations allocated to the University aggregated \$4,137,542 for the year ended June 30, 2019. State appropriations receivable is \$55,191 at June 30, 2019.

State appropriations allocated to the University for the year ended June 30, 2019 consisted of the following:

Notes to Financial Statements

June 30, 2019

(In thousands)

	 2019
State appropriations, noncapital	\$ 3,776,457
State's contribution on behalf of the University for OPEB	326,113
State appropriations, capital	 34,972
Total state appropriations	\$ 4,137,542

# (19) Subsequent Events

The following information describes significant events that occurred subsequent to June 30, 2019, but prior to the date of the auditors' report.

# SRB Issuance

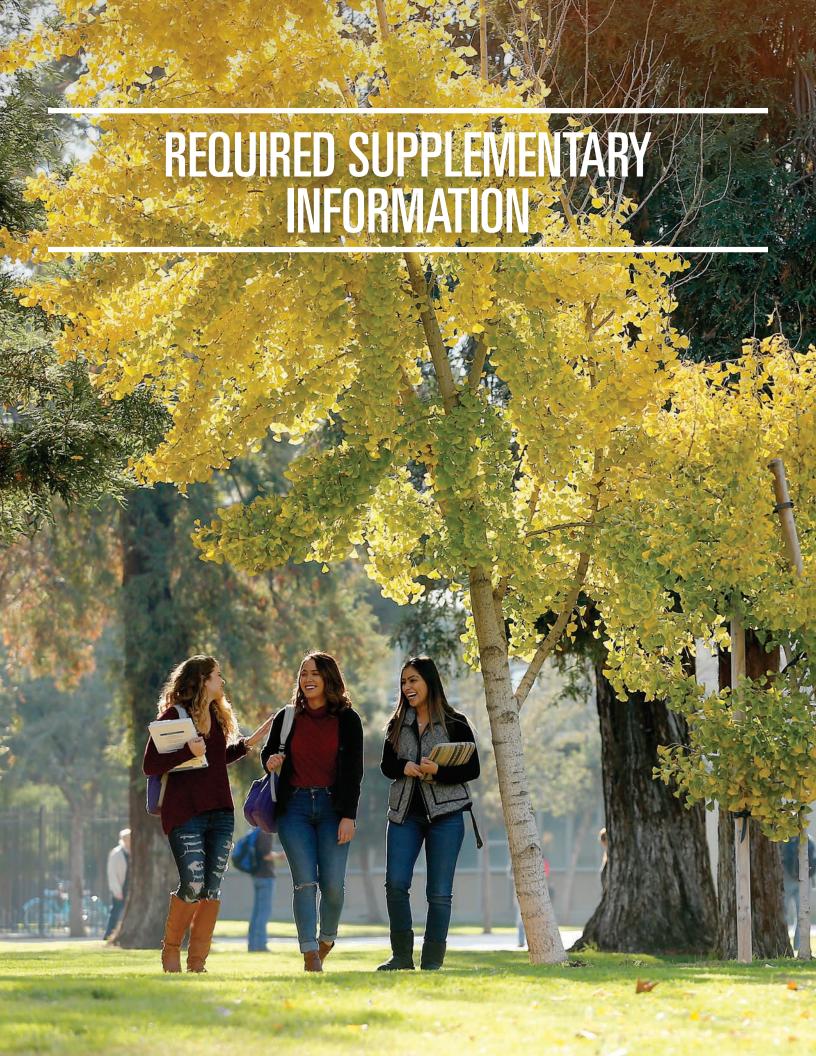

In August 2019, the University issued \$449,430 of SRB Series 2019A (Tax Exempt) and \$81,335 of SRB Series 2019B (Taxable). The new bonds were issued to fund various capital projects, redeem maturing BANs, refund outstanding SRB Series 2010A bonds, and pay related issuance costs.

#### BAN Issuance

In September 2019, the University issued \$43,255 of BANs for the San Diego State University Aztec Recreation Center expansion.

In October 2019, \$43,345 of BANs were issued for the Long Beach Housing expansion - Parkside North project and \$30,000 for the San Jose State University South Campus Parking Structure and Sports Field Facility Project.

In November 2019, the University issued \$98,300 of BANs for the Capital Outlay Program and Five-Year Facilities Renewal and Improvement Plan.

Schedule of Employer Contributions Related to Pensions

Year ended June 30, 2019

(Unaudited)

# Notes to required supplementary information schedule for the most recent fiscal year presented:

Valuation date	Actuarially calculated contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported.
Methods and assumption used to determine contribution rates:	
Actuarial cost method	Entry age normal in accordance with the requirement of GASB Statement No. 68.
Amortization method/period	For details, see June 30, 2017 Funding Valuation Report.
Asset valuation method	Actuarial Value of Assets. For details, see June 30, 2017 Funding Valuation Report.
Inflation	2.625%
Salary increases	Varies by entry age and service
Payroll growth	2.875%
Investment rate of return	7.25%, net of pension plan investment and administrative expenses; includes inflation.
Retirement age	The probabilities of retirement are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015.
Mortality	The probabilities of retirement are based on 15 years of mortality improvements using the Society of Actuaries 90% of Scale MP 2016. For more details, please refer to the 2017 CalPERS Experience Study and Review of Actuarial Assumptions report.
Significant factors affecting contribution rates	For details, see June 30, 2017 Funding Valuation Report.

Schedule of University's Total Other Postemployment Benefits Liability and Related Ratios

University's total other postemployment benefits liability as a percentage of covered payroll	420.55098%	464.76588%

<sup>(1)</sup> The University implemented GASB Statement No. 75 effective July 1, 2017, therefore, no information is available for the measurement periods prior to June 30, 2017.

<sup>(2)</sup> The date in the column heading represents the end of the measurement period of the total OPEB liability, which is one year prior to the reporting period.

# Schedule of Employer Contributions Related to Other Postemployment Benefits

Year ended June 30, 2019

(Unaudited)

(In thousands)

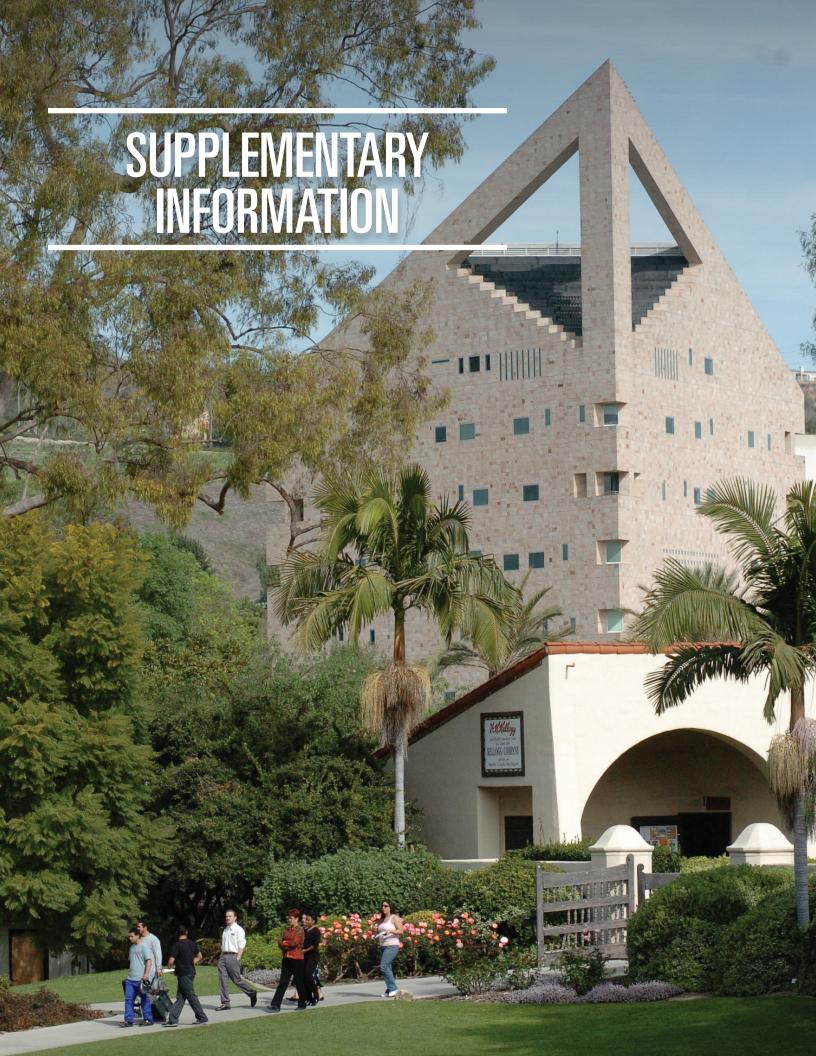

Last Ten Fiscal Years (1)

	 2019	2018
Actuarially determined contributions	\$ 743,648	754,550
Contributions in relation to the actuarially determined contributions	 (362,260)	(349,487)
Contribution deficiency	\$ 381,388	405,063
University's covered payroll	\$ 3,121,856	2,994,739
Contributions as a percentage of covered payroll	11.60399%	11.67003%

# Notes to required supplementary information schedule for the most recent fiscal year presented:

···· ···· ··· ··· ··· ··· ··· ··· ···
Actuarially calculated contribution rates are calculated as of July 1, one year prior to the end of the fiscal year in which contributions are reported.
rmined contributions:
Entry Age Normal Actuarial Cost Method and the blended discount rates as required by GASB Statements No. 74 and 75. The Normal Cost and Actuarial Accrued Liability for purpose of calculating the Actuarially Determined Contribution were developed using the Entry Age Normal Actuarial Cost Method and a full-funding discount rate of 7.00 percent.
2.5%
2.75%
The probabilities of retirement are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015.
The mortality assumptions are based on mortality rates resulting from the most recent CalPERS Experience Study adopted by the CalPERS Board. For purposes of the mortality rates, the revised rates include 15 years of projected ongoing mortality improvement using 90 percent of Scale MP 2016 published by the Society of Actuaries.

<sup>(1)</sup> The University implemented GASB Statement No. 75 effective July 1, 2017, therefore, no information is available for the measurement periods prior to June 30, 2017.

Debt service:	
Systemwide revenue bonds debt	\$ 382,001
Designated auxiliary organizations debt	 2,010
Total debt service	\$ 384,011

The purpose of this schedule is to meet bond reporting covenants covering the operations of the projects showing the gross revenues and maintenance and operation expenses for the fiscal year ended.

- (1) This included gross revenues and maintenance and operation expenses of 17 auxiliary organizations that have financed with SRB through lease or loan arrangements. This excludes research grants and contracts activity and restricted gifts. Gross revenues under the SRB Indenture are a smaller amount derived from payments under certain leases or with the Board of Trustees.
- (2) This includes gross revenues derived from leases with California State University, Channel Islands Site Authority which are used solely to pay debt service. The maintenance and operation expenses are excluded as these are not paid by the pledged gross revenues.
- (3) Maintenance and operation expenses for the year ended June 30, 2019 include extraordinary maintenance and repair projects, which are generally paid from existing program fund balances of \$105,836, other postemployment benefits expense of \$46,532 pursuant to GASB Statement No. 75, and pension expense of \$52,187 pursuant to GASB Statement No. 68.
