BCSSE Scales Snapshot

BCSSE Scales and their constituent items offer valuable information about distinct aspects of student engagement. The results below contain item- and scale-level results for your institution by student characteristics and by comparison with other institutions. Several of the BCSSE Scales correspond with [NSSE Engagement Indicators](#), and all are scored in the same way—from 0 to 60. For example, with BCSSE and NSSE data you can compare student expectations for peer collaboration to their actual collaboration several months later. Click [HERE](#) for more details about BCSSE Scales and to download a copy of the the BCSSE survey.

Results by Student Characteristics

The bar graphs below—grouped by the BCSSE Scales—represent the item-level results for your campus, with the corresponding scale score to the right (inside the circle). Below the BCSSE Scale score is the mean difference between your students' score and the mean score of students at other institutions. Use one or more of the student-level filters above (First-Generation, Major Category, etc.) to display results for selected groups of students on your campus. For example, you can generate results for first-generation students expecting to major in business.

Results by Institution Characteristics

You can also use the institution-level filters (Control and Carnegie) to compare your BCSSE Scale scores to those of other institutions who meet the same criteria. For example, BCSSEville State University, a public, master's-level institution, can compare its scale scores to all other participating public, master's-level institutions. Note that for this page and all other pages in this dashboard, the structure of the data does not allow an institution to directly compare itself to institutions in a different control or Carnegie type. For example, BCSSEville State University cannot directly compare results to private or doctoral-level institutions. However, summary results for all institutions by Carnegie and Control are available when the UNITID is set to "All".

Watch this [TUTORIAL](#) if you have questions about creating and downloading your BCSSE reports from the dashboards. Email us at bcsse@indiana.edu if you have any questions.

7. Transfer Student Results / Transfer Student Experiences Since High School

Transfer Student Experiences Since High School

Since graduating from high school, which of the following have you done? 0

Which of the following types of school have you attended other than this institution? 0

What were most of your grades at the other institution(s) you attended? 0

No data found - your filters may be too exclusive!

About how many credits do you expect to transfer to this institution? 0

No data found - your filters may be too exclusive!

How many more years do you expect it will take to complete your bachelor's degree? 0

No data found - your filters may be too exclusive!

Will you take at least one course from another college or university while attending this institution? 0

No data found - your filters may be too exclusive!

During the coming school year, which do you think will cause you stress? 0

7. Transfer Student Results / How Students Spend Their Time

How Transfer Students Expect to Spend Their Time

Students spend time on many activities—studying, working, co-curriculars, socializing, etc.—and often expect to apportion their time similarly in the first year of college ([Mu & Cole, 2019](#)). However, the past is not a perfect predictor of the future. The results below show how much time your students expect to devote to the following activities during the upcoming academic year. Some of these activities facilitate learning (e.g., studying or preparing for class), while others may distract from learning (e.g., too many hours spent working for pay). Understanding these expectations helps campuses align resources and support services to better serve their students.

Studying or preparing for class 0

Participating in co-curricular activities 0

7. Transfer Student Results / Where Students Expect to Seek Help (2022 and earlier)

Where Transfer Students Expect to Seek Help

Almost all students need academic help at some point. Some will seek out campus resources while others look to family and friends. Using the filters above, you can learn more about where your entering transfer students intend to seek academic help. This information can help your campus to better inform your students of important campus academic resources. Advisors can also use the individual student [advising reports](#) to inform students about where to go when they need help.

During the coming school year, about how often do you expect to seek help with coursework from the following sources? 0
