COLLEGE COST COMPARISON WORKSHEET

It's important to compare costs when choosing a university. Use this sheet to compare the cost of Cal Poly Humboldt's Leadership Studies Degree Completion Program to other universities with similar online degree completion programs in the CSU system.

Use a calculator to help figure out your total estimated cost of attendance, and you can customize your cost based on how many units you plan to transfer in from another college or university. For a bachelor's degree in the CSU, you can transfer up to 70 community college credits, significantly lowering your total cost of attendance. If you have earned units from another four-year university, that further reduces the total number of courses you will need.
