Report of Independent Auditors

The Board of Directors
Humboldt State University Center Board of Directors

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Humboldt State University Center Board of Directors (University Center), a component unit of Cal Poly Humboldt, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the University Center's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the University Center as of June 30, 2026, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of University Center and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University Center's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of University Center's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about University Center's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the schedule of University Center's proportionate share of the net pension liability, schedule of University Center's contributions, and schedule of changes in net OPEB liability and related ratios be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinion on the financial statements that collectively comprise University Center's basic financial statements. The schedule of net position, schedule of revenues, expenses, and changes in net position, other information, and notes to the supplementary information (collectively supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2026, on our consideration of University Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of University Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering University Center's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This section of Humboldt State University Center Board of Directors (University Center) annual financial report presents management's overview and analysis of the financial activities of the University Center for the year ended June 30, 2026. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes.

Overview of the Financial Statements

The annual report consists of a series of financial statements, prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. This standard is applicable to University Center because it is a component unit of California State Polytechnic University, Humboldt (Humboldt). Consistent with Humboldt, University Center has adopted the business-type activity (BT) reporting model to represent its activities.

The financial statements include the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. These statements are supported in the annual report by the notes to the financial statements and this section. All sections should be considered together to obtain complete understanding of the financial picture of University Center.

Statement of net position – The Statement of Net Position includes all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Assets and liabilities are reported on an accrual basis as of the statement date. It also identifies major categories of restrictions on the net position of University Center.

Statement of revenues, expenses, and changes in net position – The Statement of Revenues, Expenses, and Changes in Net Position presents the revenues earned and expenses incurred during the year on an accrual basis.

Statement of cash flows – The Statement of Cash Flows presents the inflows and outflows of cash, summarized by operating, noncapital financing, capital and related financing, and investing activities. The statement is prepared using the direct method of cash flows, and therefore, presents gross rather than net amounts for the year's operating activities.

Reporting entity – The financial statements of Humboldt will be separated between Humboldt and its component units. The latter are separate IRC 501(c)(3) non-profit auxiliary organizations whose financial information will be presented in a discrete column and in the footnotes of Humboldt's financial statements. Consequently, these auxiliaries must comply with the same governmental rulings and present their individual separate audited financial statements in the same format.

Change in Operations

Effective January 8, 2021, the existing Operating Agreement between the Trustees of the California State University (CSU) and the University Center was terminated. As a result, the existing activities of developing, financing, and operating the Student Union including bookstore, dining services, and Student Union Programs of Recreational & Wellness, Student Recreation & Fitness and Professional Performance & Entertainment Events ceased.

Effective May 1, 2021, a new operating agreement was put in place between the Trustees of the CSU and the University Center with activities limited to the support of Student Union Programs, comprised of payment of ongoing pension and other post-employment benefit obligations (OPEB) for employees of the University Center.

For the year ended June 30, 2026, University Center implemented GASB Statement No. 103, *Financial Reporting Model Improvements*, which revised the required content and presentation of Management's Discussion and Analysis and certain presentation requirements for proprietary fund financial statements.

Financial Summary

A summary of key financial statement information is presented below:

	2026	2025	Increase (Decrease)	Percent Change
Assets:				
Current assets	$ 1,436,160	$ 1,871,192	$ (435,032)	-23%
Long-term investment	5,987,913	5,479,884	508,029	9%
Long-term receivable	334,410	355,349	(20,939)	-6%
Postemployment benefit asset	1,393,170	1,428,306	(35,136)	-2%
Total assets	9,151,653	9,134,731	16,922	0%
Deferred outflows of resources	932,958	1,982,449	(1,049,491)	-53%
Liabilities:				
Current liabilities	73,874	72,559	1,315	2%
Noncurrent liabilities	3,097,479	3,676,357	(578,878)	-16%
Total liabilities	3,171,353	3,748,916	(577,563)	-15%
Deferred inflows of resources	2,646,413	2,999,334	(352,921)	-12%
Net position:				
Restricted - OPEB asset	1,393,170	1,428,306	(35,136)	-2%
Unrestricted	2,873,675	2,940,624	(66,949)	-2%
Total net position	$ 4,266,845	$ 4,368,930	$ (102,085)	-2%

University Center's condensed summary of revenues, expenses, and changes in net position for the years ended June 30, 2026 and 2025, is as follows:

	2026	2025	Increase (Decrease)	Percent Change
Expenses:				
Operating expenses	$ 772,549	$ 644,266	$ 128,283	20%
Total operating expenses	772,549	644,266	128,283	20%
Operating loss	(772,549)	(644,266)	(128,283)	20%
Noncapital subsidies	(10,000)	(10,000)	-	0%
Nonoperating revenues:				
Investment income	680,464	579,316	101,148	17%
Net nonoperating revenues	680,464	579,316	101,148	17%
Increase (decrease) in net position	(102,085)	(74,950)	(27,135)	36%
Net position:				
Net position at beginning of year	4,368,930	4,443,880	(74,950)	-2%
Net position at end of year	$ 4,266,845	$ 4,368,930	$ (102,085)	-2%

Statement of Net Position Variance Analysis between 2026 and 2025

University Center has a cash balance of $14,750 in the checking account and $1,405,931 held in Local Agency Investment Fund (LAIF). This combined total unrestricted cash of $1,420,681 allows the University Center the ability to fund any of the immediate, yet minimal, operating expenses that may arise.

Current assets decreased by $435,032. Current assets include cash and cash equivalents, unrestricted cash in LAIF, accounts receivable, and prepaid expenses. The decrease primarily reflects payments made for operating expenses, including pension and OPEB.

The GASB 75 requirement to recognize post-employment benefit liability, as determined by an actuarial study dated June 30, 2025, found the actuarial accrued liability to be $3,473,054. University Center participates in the VEBA Trust developed by the California State University Auxiliary Organizations Association to hold plan assets to fund this accrued liability. As of the June 30, 2025, valuation, plan assets held by VEBA were $4,866,224, resulting in a net OPEB asset of $1,393,170. University Center reports the net OPEB asset as of June 30, 2026, based on the June 30, 2025, valuation.

Current liabilities include accounts payable and other current liabilities. Current liabilities increased by $1,315 due to growth in the UC's long-term investment held with the Cal Poly Humboldt Foundation (the Foundation) resulting in higher investment service fees owed at year end.

Noncurrent liabilities decreased $578,878. The noncurrent liabilities represent the net pension liability that is required to be recognized and recorded in accordance with the parameters of GASB Statement No. 68. The net pension liability as of June 30, 2025, as determined by an actuarial valuation dated June 30, 2024, and rolled forward to June 30, 2025, found the net pension liability to be $3,097,479. University Center participates in a cost-sharing multiple-employer defined benefit plan through California Public Employees' Retirement System (CalPERS). University Center reports the net pension liability as of June 30, 2026, based on the June 30, 2024, valuation, rolled forward to June 30, 2025.

Deferred outflows decreased by $1,049,491 and deferred inflows of resources decreased by $352,921 resulting from differences between projected and actual earnings and employer contributions and proportionate share of contributions on pension obligations and differences between expected and actual experiences on OPEB obligations.

Net position decreased by $102,085 reflecting the cumulative net change in assets, deferred inflows and outflows and liabilities for the year.

Revenue and Expense Variance Analysis between 2026 and 2025

Current year operating expenses increased by $128,283, which was primarily due to more pension and OPEB expense as a result of the GASB 68 and GASB 75. Actual pension cash expenditures increased by $53,776.

Investment gains were $680,464, which was an increase of $101,148 over the prior year. Investment income is comprised of gains/losses on the investment held by the Foundation and interest earned on the LAIF account. The increase from the prior year is primarily due to market fluctuations of the investment held by the Foundation, which saw an increase in income and realized gains, offset by an increase in unrealized losses.

Currently Known Facts, Decisions, or Conditions

The University Center is a participant in CalPERS. CalPERS is a defined-benefit retirement program that relies heavily on investments in financial markets for the assets required to pay benefits to retirees. This reliance on investment returns to meet expectations exposes the University Center to potentially large rate increases when the CalPERS investment portfolio fails to meet expectations.

Request for Information

This financial report is designed to provide a general overview of the University Center's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the University Center, 1 Harpst Street, Arcata, CA 95521.

Change in fair value of investment	$ 506,368

See accompanying notes.

Note 1 – Organization

Humboldt State University Center Board of Directors (University Center) is an auxiliary organization of California State Polytechnic University, Humboldt (Humboldt), in Arcata, California, and the California State University System. As an affiliated organization component unit of Humboldt, University Center's financial data is included in Humboldt's financial statements. University Center is a nonprofit corporation formed to promote the welfare of Humboldt and its students and employees.

Through January 8, 2021, the primary activities of University Center were to develop, finance, and operate the Student Union, bookstore (under outside management), and dining services on the Humboldt campus. Through March 5, 2021, University Center provided management services to the Northern Humboldt Recreation and Park District. University Center was primarily supported by student fees and dining sales, and contracted revenues from students at Humboldt. Through January 8, 2021, University Center had a management agreement with Follett Higher Education Group, Inc. (Follett), which gave Follett the exclusive right to operate the bookstore on campus and related internet sales for the University Center.

Effective May 1, 2021, the primary function of University Center is to administer the Student Union with activities limited to the support of Student Union Programs, and payments related to ongoing pension and other post-employment benefit obligations (OPEB) for prior employees of the University Center.

Note 2 – Summary of Significant Accounting Policies

Basis of presentation – University Center applies generally accepted accounting principles applicable to governmental units as a component unit of Humboldt.

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. generally accepted accounting principles, as prescribed by the Governmental Accounting Standards Board (GASB). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The financial statements required by GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 35*, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*, include a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows. University Center has elected to use the proprietary fund reporting model for special-purpose governments engaged only in business-type activities. In accordance with the business-type activities reporting model, University Center prepares its statement of cash flows using the direct method.

Basis of accounting – The financial statements have been prepared to conform with Accounting Principles Generally Accepted in the United States of America (GAAP) as applied to governmental units. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The summary of significant accounting policies is presented to assist in understanding University Center's financial statements. The financial statements and notes are representations of management, who is responsible for their integrity and objectivity. These accounting policies have been consistently applied in the preparation of the financial statements.

Classification of current and noncurrent assets and liabilities – University Center considers assets to be current that can reasonably be expected, as part of its normal business operations, to be converted to cash and be available for liquidation of current liabilities within 12 months of the statement of net position date. Liabilities that reasonably can be expected, as part of normal University Center business operations, to be liquidated within 12 months of the statement of net position date are considered to be current. All other assets and liabilities are considered to be noncurrent.

Cash and cash equivalents – University Center considers all highly liquid investments with an original maturity date of three months or less to be cash and cash equivalents. Amounts included in the Local Agency Investment Fund (LAIF) are considered to be investments.

Investments – Investments are stated at fair value. Interests in commingled funds with Cal Poly Humboldt Foundation (Foundation) are based upon the latest valuations provided by the fund managers of the respective funds adjusted for cash receipts, cash disbursements, and securities distributions through June 30, 2026. The University Center believes the carrying amount of these financial instruments is a reasonable estimate of fair value. Because the commingled funds are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ significantly from the value that would have been used had a ready market for such investments existed.

Accounts receivable – University Center provides a reserve for uncollectible accounts that is based upon a review of outstanding receivables. Accounts receivable considered uncollectible are charged against the reserve account in the year they are deemed to be uncollectible. No reserve for uncollectible accounts was deemed necessary as of June 30, 2026.

Deferred outflows of resources – Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense) until then. The deferred outflows of resources are related to pension and Other Post Employment Benefits (OPEB) items as noted in Note 5 and Note 6. The deferred outflows will be amortized to pension and OPEB expense over the expected average remaining service lifetime for the plan.

Net OPEB asset – University Center recognizes post-employment benefits as a liability (asset) in the statement of net position and recognizes changes in the funded status in the year in which the changes occur in unrestricted net position, unless a minimum amortization is required to be included as a component of net periodic postretirement benefit cost in accordance with applicable accounting standards.

Net pension liability – For purposes of measuring the net pension liability and deferred outflow/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employees' Retirement System (CalPERS) plan and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Deferred inflows of resources – Deferred inflows of resources represent an acquisition of net assets by the University Center that is applicable to a future reporting period. The deferred inflows of resources are related to pension and OPEB as noted in Note 5 and Note 6. These amounts are deferred and amortized to pension and OPEB expense over closed periods ranging from 0 to 9.8 years.

Net position – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is reported in three components: net investment in capital assets, restricted, and unrestricted. Net investment in capital assets consists of capital assets, net of accumulated depreciation and amortization, reduced by outstanding debt attributable to the acquisition, construction, or improvement of those assets, with applicable adjustments for deferred outflows and inflows of resources. Restricted net position consists of resources subject to externally imposed constraints by creditors, grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation; all remaining net position is classified as unrestricted. The University Center does not report any net investment in capital assets. When both restricted and unrestricted resources are available for the same purpose, the University Center's policy is to use restricted resources first, followed by unrestricted resources.

Fair value – GASB Statement No. 72 provides the framework for measuring the fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the University Center has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly, such as:

- quoted prices for similar assets in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

Net asset value (NAV) – The amount of net assets attributable to each unit in commingled investments outstanding at the close of the period and excluded from the three defined levels above. All long-term investments are reported at NAV.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Classification of revenues and expenses – University Center classifies revenues and expenses as operating or nonoperating in accordance with GASB Statement No. 103, *Financial Reporting Model Improvements* and GASB Statement No. 35 *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*. Operating revenues and expenses are revenues and expenses other than nonoperating revenues and expenses. Nonoperating revenues and expenses include subsidies received or provided, revenues and expenses related to financing, resources arising from the disposal of capital assets and inventory, and investment income and expenses. Revenues or expenses that otherwise would be classified as nonoperating are classified as operating when the related transactions constitute University Center's principal ongoing operations. Noncapital subsidies are presented separately from other nonoperating revenues and expenses.

Revenue recognition

Investment income – Investment income is recorded at the time it is earned.

Income taxes – University Center qualifies as a tax-exempt organization under the applicable sections of the Internal Revenue Code (IRC) Section 501(c)(3) and California Revenue and Taxation Code Section 23701(d).

University Center has evaluated its tax positions and the certainty as to whether those tax positions will be sustained in the event of an audit by taxing authorities at the federal and state levels. The primary tax positions evaluated are related to the University Center's continued qualification as a tax-exempt organization and whether there is unrelated business income activities conducted that would be taxable. Management has determined that all income tax positions are more likely than not of being sustained upon potential audit or examination; therefore, no disclosures of uncertain income tax positions are required. University Center files informational tax returns in the U.S. federal jurisdictions and the state of California.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

During the fiscal year ended June 30, 2026, UC adopted GASB Statement No. 103, *Financial Reporting Model Improvements*. The statement introduces targeted improvements to governmental financial reporting, including Management's Discussion and Analysis (MD&A), reporting of unusual or infrequent items, proprietary fund operating vs. nonoperating revenues and expenses, major component unit presentation, and budgetary comparison information. Adoption resulted in changes to financial statement presentation and terminology but did not affect beginning net position or the total change in net position.

During the fiscal year ended June 30, 2026, UC implemented GASB Statement No. 104, *Disclosure of Certain Capital Assets*. The Statement requires separate note disclosure of certain capital assets, including lease assets, intangible right-to-use assets arising from public-private or public-public partnerships, subscription assets, other intangible assets, and capital assets held for sale. UC applied the requirements retroactively to all periods presented, as applicable. Implementation did not affect any financial statement line items or result in additional capital asset disclosures because UC did not report any capital assets as of June 30, 2026.

Note 3 – Cash and Cash Equivalents and Short-term Investment

University Center maintains its cash in bank deposit accounts that are insured by the Federal Deposit Insurance Corporation (FDIC) up to a limit of $250,000 per depositor. At June 30, 2026, University Center had no uninsured and uncollateralized cash balance. Custodial credit risk is the risk that in the event of the failure of a counterparty, University Center would not be able to recover the value of its investments that are in the possession of an outside party. Financial instruments that potentially subject University Center to custodial risk are investments in excess of amounts insured by the FDIC. No policy exists related to custodial risk specifically. University Center's investment policy does not prohibit deposits in single institutions that expose University Center to custodial credit risk. Management believes the organization is not exposed to any significant custodial credit risk related to cash.

University Center's short-term investment portfolio consists of investments in LAIF, a voluntary program created by statute as an alternative for California's local governments and special districts that allows affiliates to participate in a major investment portfolio. It is under the administration of the California State Treasurer's Office. There are no significant interest rate risks or credit risks to be disclosed in accordance with GASB Statement No. 40*, Deposit and Investment Risk Disclosures*. The investment is not insured. However, these funds are invested in accordance with California Government Code Sections 16430 and 16480, the stated investment authority for the Pooled Money Investment Account. At June 30, 2026, cash in LAIF was $1,405,931.

Note 4 – Long-Term Investment

The University Center has a long-term investment that is managed by the Foundation and is administered in accordance with the California Uniform Prudent Management of Institutional Funds Act (UPMIFA). The investment is commingled with the Foundation's pooled investment account held with Principal Custody Solutions and is invested and managed in accordance with the investment policies of Foundation. The investment is included in the unrestricted net position category on the statement of net position.

Investment at NAV – The value of the investment is determined by the Foundation and is based on the University Center's pro rata interest in the underlying assets held by the Foundation. The Foundation allocates income and value pro rata based on the underlying assets held that are observable and unobservable. The valuation methods utilized by the Foundation are subject to regular review by the University Center. At June 30, 2026, the long-term investment was $5,987,913.

Underlying assets held by Foundation	
Money Market Funds	$ 25,329
Mutual Funds - Equity	30,792,652
Mutual Funds - Fixed Income	14,306,754
Real Estate Investment Trust	8,376,638
Real Estate	9,290,000
Total	$ 62,791,373
University Center's interest held by Foundation	9.5362%
Total long-term investment	$ 5,987,913

Investment risk – The commingled funds held by Foundation are invested in various types of investment securities. Investment securities are exposed to risks such as credit, custodial credit, and foreign currency risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net position.

Credit risk and interest rate risk – Certain securities with fixed income are subject to credit risk, which is the risk that an issue of an investment will not fulfill its obligations. Other securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk. With regard to the trusts included in endowment investments, the University Center is not the trustee of these investments and, therefore, it currently has no policies with regard to credit risk for these investments.

Interest rate risk is the risk that the value of fixed income securities will decline because of changing interest rate. With regard to the trusts included in endowment investments, the University Center is not the trustee of these investments and, therefore, it currently has no policies with regard to interest rate risk for these investments.

Custodial credit risk – Custodial credit risk is the risk that in the event of a failure of the custodian, the University Center may not be able to recover the value of the investments held by the custodian, as these investments are uninsured. This risk typically occurs in repurchase agreements where one transfers cash to a broker-dealer in exchange for securities, but the securities are held by a separate trustee in the name of the broker-dealer. The University Center does not have a specific policy with regard to custodial credit risk.

Concentration of credit risk – Concentration of credit risk is the risk of loss attributed to the magnitude of the University Center's investments within any one issuer. For the fixed income portion of the endowment pool, the University Center's policy for reducing its exposure to concentration of credit risk is to limit the investments within any one issuer to a maximum of 5% of the fixed income portfolio, provided that issues of the U.S. government or agencies of the U.S. government may be held without limitation and provided further that issues of agencies of the U.S. government shall be limited to the extent set forth in the manager-specific guidelines. The University Center does not have a specific policy with regard to the operating pool or the remainder of the endowment pool. At June 30, 2026, there were no investments within any one issuer in an amount that would constitute a concentration of credit risk to the University Center.

Foreign currency risk – Foreign currency risk is the risk of investments losing value due to fluctuations in foreign exchange rates. The University Center does not directly invest in foreign currency investments and is, therefore, not subject to foreign currency risk.

Note 5 – Pension Plan – California Public Employees' Retirement System (CalPERS)

University Center participates in a cost-sharing multiple-employer defined benefit plan through CalPERS that covered substantially all regular full-time employees of the University Center. University Center has no active employees as of June 30, 2026. CalPERS acts as a common investment and administrative agent for participating public entities with the state of California and reports information to the University Center in accordance with reporting standards established by GASB.

The proportionate share of the net pension liability, pension expense, and deferred inflow of resources for the above plan and a deferred outflow of resources as follows of and for the year ended June 30, 2026:

Pension Plan	Proportionate Share of Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Proportionate Share of Pension (Income) Expense
CalPERS	$ 3,097,479	$ 882,492	$ 2,160,850	$ 187,481

Plan description – Qualified employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Plan under CalPERS, which is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. The cost-sharing multiple-employer defined benefit plan is comprised of a Miscellaneous or Safety Plan. The University Center sponsors two Miscellaneous Risk Pool plans; however, the information presented below represents the sum of the allocated pension amounts for each of the University Center's respective plans (the Plan). Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law.

Benefits provided – The Plan provides service retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for employment-related disability benefits regardless of length of service and nonduty disability benefits after five years of service. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The Post-Retirement Death Benefit is a one-time payment made to a retiree's designated survivor or estate upon the retiree's death. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law. The First Tier Plan was closed to new entrants on or after January 1, 2013.

The Plan provisions and benefits in effect at June 30, 2026, are summarized as follows:

	Miscellaneous Risk Pool	
	First Tier Plan	PEPRA Misc Plan
Hire date	On or before December 31, 2012	On or after January 1, 2013
Benefit formula	2% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life
Retirement age	50	52
Required employee contribution rates	0.000%	0.000%
Required employer contribution rates	0.000%	0.000%

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined annually through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. University Center is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as percentage of annual payroll. The contributions for the unfunded accrued liability for the year ended June 30, 2026, were $465,242.

Pension liabilities, pension expense, deferred outflows of resources, and deferred inflows of resources related to pension – As of June 30, 2026, University Center reported net pension liability for its proportionate share of the Miscellaneous Risk Pool net pension liability totaling $3,097,479. The net pension liability was measured as of June 30, 2025, the measurement date. The total pension liability for Miscellaneous Risk Pool was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2024, and rolling forward the total pension liability to June 30, 2025. University Center's proportion of the net pension liability was based on a projection of University Center's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At the June 30, 2025, measurement date, University Center's proportion was 0.03262%.

For the year ended June 30, 2026, University Center recognized pension expense of $187,481. At June 30, 2026, University Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 417,250	$ -
Net difference between projected and actual earnings on investments	-	471,179
Changes in proportion	-	1,194,954
Differences between employer contributions and proportionate share of contributions	-	494,717
Total (prior to post-measurement date contributions)	417,250	2,160,850
Contributions subsequent to the measurement date	465,242	-
Total	$ 882,492	$ 2,160,850

The deferred outflows of resources related to pensions resulting from University Center contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2027. The remaining deferred outflows and inflows of resources will be amortized over a closed period of between 0 and 3.8 years and will be recognized in pension expense as follows:

Year Ended June 30	Deferred Outflows/ (Inflows) of Resources
2027	$ (725,600)
2028	(468,247)
2029	(369,883)
2030	(179,870)
	$ (1,743,600)

Actuarial methods and assumptions – Total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2024, and rolling forward the total pension liability to June 30, 2025. The financial reporting actuarial valuation as of June 30, 2024, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2024
Measurement date	June 30, 2025
Actuarial cost method	Entry Age Normal
Actuarial assumptions	
Discount rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Mortality rate table	Derived using CalPERS' Membership Data for all Funds (1)

(1) The mortality table was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website.

Long-term expected rate of return – The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, and combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The expected real rates of return by asset class are as follows:

Asset Class	New Strategic Allocation	Real Return Years 1-10 (1,2)
Public Equity	37.00%	4.56%
Private Equity	17.00	5.56
Fixed Income	28.00	2.53
Real Assets	15.00	3.03
Private Debt	8.00	4.93
Strategic Leverage	-5.00	1.40

(1) An expected inflation of 2.30% used for this period
(2) Figures are based on the 2024 Mid-Cycle Asset Liability Management study.

Discount rate – The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension liability sensitivity – The following presents University Center's proportionate share of the net pension liability for the Plan, calculated as of June 30, 2026, using the discount rate for the Plan, as well as what University Center's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

Description	Discount Rate - 1% (5.90%)	Current Discount Rate (6.90%)	Discount Rate + 1% (7.90%)
UC's proportionate share of the Plan's pension liability	$ 6,099,105	$ 3,097,479	$ 627,173

Pension plan fiduciary net position – Detailed information about CalPERS Miscellaneous Risk Plan fiduciary net position is available in a separate issued annual comprehensive financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 Q Street, Sacramento, California 95811.

Note 6 – Other Post Employment Benefits (OPEB)

OPEB plan description – **CalPERS** – University Center participates in the CalPERS medical program. University Center pays a portion of the retiree's healthcare insurance premiums. The plan also covers dependents of the employee. Benefited employees hired prior to July 1, 2006, who are eligible to retire from CalPERS, are 100% vested. Benefited employees hired on or after July 1, 2006, are 50% vested at age 50 if they have 10 years of service. With every additional year of service, the vesting increases by 5%, reaching 100% for employees who are age 50 or older who have at least 20 years of service. University Center's premium contribution cannot be less than what is defined by CalPERS Section 22892(b). Total contribution payments to CalPERS for retirees for the year ended June 30, 2026, were $287,709.

In the fiscal year ended June 30, 2012, University Center began participating in the Auxiliaries Multiple Employer VEBA (Voluntary Employees' Beneficiary Association), an agent multiple-employer defined benefit OPEB plan. The Auxiliaries Multiple Employer VEBA is a separate 501(c)(9) organization established in August 2010 to assist in funding post-retirement healthcare benefits for recognized auxiliaries of the California State University System. The Auxiliaries Multiple Employer VEBA seeks an average total annual return net of fees and expenses of 3.0% plus the Consumer Price Index for All Urban Consumers: U.S. City Average – All Items. To achieve its return objectives, the Auxiliaries Multiple Employer VEBA's investment portfolio is allocated among a number of asset classes. Copies of the Trust annual financial report may be obtained from the Humboldt State University Center Business Office at 1 Harpst Street, Arcata, CA 95521. Total payments received from the trust to cover contribution payments to CalPERS for retirees for the year ended June 30, 2026, were $288,000.

	Number of Participants
Inactive employees receiving benefits	26
Inactive employees entitled to but not receiving benefits	-
Participating active employees	-
Total number of participants	26

OPEB expense, deferred outflows of resources, and deferred inflows of resources related to OPEB – For the year ended June 30, 2026, University Center recognized OPEB expense of $430,594. At June 30, 2026, University Center reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 272,222
Changes in assumptions	50,466	-
Net difference between projected and actual earnings on investments	-	213,341
Total	$ 50,466	$ 485,563

The deferred outflows of resources related to OPEB resulting from University Center contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2027. The remaining deferred outflows and inflows of resources will be amortized over a closed period of between 0 and 9.8 years and will be recognized in OPEB expense as follows:

Year Ended June 30	Deferred Outflows/ (Inflows) of Resources
2027	$ 38,866
2028	(233,251)
2029	(181,571)
2030	(59,141)
	$ (435,097)

Assumptions and other inputs – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The Total OPEB Liability was determined by an actuarial valuation as of June 30, 2025, which is the measurement date using the following actuarial assumptions:

Inflation	2.50%
Health care cost trends	4.00%
Salary increases	2.75%
Investment rate of return	5.75%

Mortality rates were based on the 2021 CalPERS Active Mortality for Miscellaneous Employees and 2021 CalPERS Retiree Mortality for Miscellaneous Employees Tables. CalPERS periodically studies mortality tables that are modified versions of commonly used tables. These tables incorporate mortality projections as deemed appropriate based on CalPERS analysis.

For other assumptions, the actuarial valuation used actual plan provisions and plan data.

The following presents the net OPEB liability, with a healthcare cost trend rate one percentage point lower (3.0 percent) and one percentage point higher (5.0 percent) than assumed in the valuation:

	Trend 1% Lower	Valuation Trend	Trend 1% Higher
Net OPEB Liability (Asset)	$ (1,661,363)	$ (1,393,170)	$ (1,086,087)

The discount rate used to measure the total OPEB liability was 5.75%. The projection of cash flows used to determine the discount rate assumed that University Center's contributions will be made at the current contribution rate. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members over a period not to exceed 30 years. Historic 30-year real rates of return for each asset class along with an assumed long-term inflation assumptions were used to set the discount rate. The expected investment return was offset by investment expense of 25 basis points.

The Long-Term Expected Rate of Return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the Long-Term Expected Rate of Return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
All Fixed Income	39.00%	4.25%
All Domestic Equities	30.00%	7.25%
All International Equities	25.50%	7.25%
Real Estate Investment Trusts	5.50%	7.25%
	100.00%	

The following presents the net OPEB liability, with a discount rate one percentage point lower (4.75 percent) and one percentage point higher (6.75 percent) than assumed in the valuation:

	Discount Rate 1% Lower	Valuation Discount Rate	Discount Rate 1% Higher
Net OPEB Liability (Asset)	$ (1,088,440)	$ (1,393,170)	$ (1,654,889)

Changes in the Total OPEB Liability

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability (Asset)
Opening Balance 6/30/25	$ 3,161,969	$ 4,590,275	(1,428,306)
Interest on Total OPEB Liability/Return on Fiduciary Net Position	174,526	-	174,526
Expected Investment Income	-	256,012	(256,012)
Administrative Expenses	-	(20,772)	20,772
Benefit Payments from Trust	(255,000)	(255,000)	-
Expected Minus Actual Benefit Payments	1,534	-	1,534
Differences between Expected and Actual Experience	313,974	-	313,974
Investment Gains/Losses	-	295,709	(295,709)
Change in Assumptions	76,051	-	76,051
Net Change during 2025-26	311,085	275,949	35,136
Balance at 6/30/26 based on 6/30/25 valuation	$ 3,473,054	$ 4,866,224	$ (1,393,170)

As of June 30, 2025, the most recent actuarial valuation date and also the measurement date, University Center's total OPEB liability was $3,473,054. University Center has set aside funds to cover retiree health liabilities in VEBA, a GASB 75 qualifying trust. The Fiduciary Net Position of this trust at June 30, 2025, was $4,866,224, resulting in a Net OPEB Asset of $1,393,170.

Note 7 – Unrestricted Net Position

Unrestricted net position consists of the following board-designated classifications as of June 30, 2026:

Working capital reserves	$ 29,977
Current operating reserves (economic uncertainty)	44,966
Planned future operations	2,798,732
Total unrestricted net position	$ 2,873,675

Note 8 – Related-Party Transactions

University Center and Humboldt provide various services on each other's behalf, and such services are appropriately billed.

In May 2021 University Center invested $7,000,000, which is commingled with the Foundation's pooled investment account held with Principal. The investment is managed by the Foundation and administered in accordance with the California Uniform Prudent Management of Institutional Funds Act (UPMIFA). The Foundation charges an annual investment service fee of 1.5%. The amount of investment fees paid by the University Center to the Foundation for the year totaled $78,497.

In May 2021, University Center transferred capital assets with a net book value of $439,105 to Humboldt as part of the new operating agreement between the CSU and University Center for the period of May 1, 2021, through June 30, 2026, and renewed through June 30, 2035. For the duration of the agreement, Humboldt will provide business services to University Center. University Center will reimburse Humboldt for the services provided by crediting the amount due from Humboldt for the transfer of the capital assets. The amounts due from Humboldt at June 30, 2026, totaled $334,410. At June 30, 2026, amounts due to Humboldt were $52,213. In addition, during the year ending June 30, 2026, the University Center reimbursed the CSU $805,314 for expenses paid on the University Center's behalf.

Change in fair value of hedging derivative instrument	
Irrevocable split-interest agreements	
Total deferred inflows - others	**0**
Total deferred inflows of resources	**$ 2,646,413**

Note 1 – Supplementary Information

As an auxiliary organization of the California State University (CSU), Humboldt State University Center Board of Directors (University Center) is required to include audited supplementary information in its financial statements in the form and content specified by CSU. As a result, there are differences in reporting format between University Center's financial statements and the supplementary schedules for CSU.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Directors
Humboldt State University Center Board of Directors

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Humboldt State University Center Board of Directors (University Center), a component unit of Cal Poly Humboldt, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise University Center's basic financial statements, and have issued our report thereon dated September 16, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered University Center's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of University Center's internal control. Accordingly, we do not express an opinion on the effectiveness of University Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether University Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
