

Please note! Our poster is not ready to be printed as experimentation is still being done. This is an independent lab experiment being conducted for Dr. Brigitte Blackman's BIOL 350L course and we are currently analyzing our results. We will print our own poster and have it ready by ideaFest. Contact me at [ek108@humboldt.edu](mailto:ek108@humboldt.edu) with any questions. Thank you!
